

2013

Distinctively Better® Plants

2013 Trends & Opportunities

There is an exciting new spirit at Monrovia this year. Production is up significantly, marketing launched a Social Media Campaign for our customers, and the mantle of leadership has been assumed by John Keller, VP of Operations and David Kirby, VP of Sales. As 20-plus year craftsmen, David and John share our drive to improve the value of each Distinctively Better® plant. They created six new and much smaller sales regions. Each is tasked with improving the quality, readiness and price of its plants. This improvement includes new sales forecasting software. As a result we will have more plants priced and grown timely for each region.

We are also very excited about our new marketing focus where Pam Wasson, VP of Marketing, a craftsman of 17 years, has created a Social Media Campaign of extraordinary scope and impact. Led by Destini Protich, we are partnering with our customers to provide informative, timely and inspirational connections with consumers via the internet. We know this is a fast developing area and if you have not partnered with us, please contact Pam or Destini to get started.

Although we are closing our growing area in North Carolina next June, we have shifted those plants to Georgia and overall our production is increasing significantly for the next three years, thanks to new financing with our banks. Jerry Lee, a 38-year Craftsman, is our General Manager in Georgia, Greg Rusow, a 30-year Craftsman, is our General Manager in California and Rick Wells, a 35-year Craftsman is our General Manager in Oregon. In other words we have experienced leadership for growing more Distinctively Better plants at all locations – and growing them we are.

As always, our focus is on the gardening consumers, and we are pleased that our brand remains the most recognized consumer brand. This year for the first time, we have an exclusive partner within the home improvement channel. Consumers will be able to find our brand at select Lowe's stores at premium prices. We know our brand is preferred because our plants have a Distinctively Better appearance in garden centers and more importantly because our plants perform in a Distinctively Better manner once planted.

Our success is based on the support we receive from leading breeders around the world. Nicholas Staddon, a 23-year Craftsman, has forged and sustained this remarkable outreach. We are pleased to partner with such outstanding innovators as Dave Brazelton of Fall Creek Farms, Dale and Jeremy Deppe of Proven Winners, Dan Hinkley founder of Heronswood and Anthony Tesselaar of ATI to name a few. We know consumers are receiving improved varieties thanks to our partnerships with leading breeders. In 2013, there are over 200 new introductions and nearly 1,000 more being evaluated.

These are exciting times at Monrovia as we find more ways to improve the value of what we offer you, our customers, and consumers across North America. Please accept our wishes for a prosperous 2013 and rest assured the plants we have for you will be Distinctively Better.

Miles Rosedale, CEO

Here to help you grow your business.

- ➊ We have a wealth of free online resources to make it easy! Photos, content, ideas and marketing materials you can use.
- ➋ Online outreach is trackable, shareable and easy to change based on consumer feedback. Online gardening communities love to share their passion for beautiful plants and gardening secrets.
- ➌ Social media can be an effective way to create loyalty and influence shoppers. Engage with your customers about what interests them.
- ➍ In the spirit of engaging people and sharing, let's look at the best ways to grow all our followers and inspire them to garden!

The Dan Hinkley Plant Collection®

More Gems from Around the World, Thanks to Our Plant Explorer Dan Hinkley

Renowned plant explorer, Dan Hinkley, looks to Monrovia to grow and nurture the fabulous new varieties he discovers. Dan travels the globe to bring us new plants, and he is especially excited about these four recent discoveries from Asia:

Hydrangea Plum Passion® is the first ever purple-leaved form of the lovely Hydrangea aspera species. This unique and stunning plant was discovered several years ago in the wilds of Central China. With its striking velvety foliage, lovely soft pink lacecap flowers and cold hardiness to Zone 7, it will be prized by Hydrangea and foliage lovers alike.

Pittosporum Formosan Fingers™ is a rare evergreen species from Taiwan. It offers year round interest with its remarkably long and narrow leaves, slightly fragrant creamy white flowers in the spring and orange-red berries in autumn. Its compact stature is perfect for today's smaller gardens.

From the highest mountains of Vietnam comes a new Hardy Schefflera. This unique multi-stemmed shrub has stunning tropical foliage that emerges pale fawn and matures to a deep green over time. Its attractive mid-summer flowers are followed by purple fruit. One of Dan's favorite species, Scheffleras make wonderful indoor container plants in colder climates.

The new Windcliff Fragrant Pachysandra is sure to be the go-to plant for people seeking a shade-loving groundcover. Fragrant white flowers appear in early spring and repeat in autumn. Glossy evergreen foliage grows just four to six inches tall in full shade or partial sun.

Abutilon x hybridum 'Cascade Dawn'
Cascade Dawn Flowering Maple

Item #4974
Zone: 8 - 11

A frost tolerant selection from renowned plantsman Dan Hinkley's Windcliff garden. Reddish-orange lantern-like flowers appear continuously for months. Cascade Dawn has an upright habit and looks great in the background border combined with light colored flowers and foliage planted beneath. This fast growing semi-evergreen shrub reaches six to eight feet tall and wide.

The Dan Hinkley Plant Collection®

Acacia pravissima

Ovens Wattle

Item #4975

Zone: 8 - 11

A fast growing and drought tolerant small evergreen tree from Australia with superb blue green foliage and a flurry of soft yellow honey-scented flowers in late winter. Reaches up to 20 feet tall.

Actinidia tetramera var maloides

Rosy Crabapple Kiwi

Item #5641

Zone: 6 - 9

This kiwi vine is rarely seen in American gardens, which would welcome its showy presence. Its deep green leaves, tipped with white, brighten a semi-shaded trellis or arbor the summer through. In spring, a showy display of rose-pink saucer-shaped flowers appears along the stems. No fruit is produced, since this is a male clone. Will perform well in any reasonable soil. Until now, this beautiful vine has been incorrectly identified as *A. pilosula*; a different Chinese species. Climbs by twining stems 10 to 25 feet long so needs support.

Agapanthus inapertus 'Graskop'

Graskop Lily of the Nile

Item #5000

Zone: 7 - 10

This extraordinary agapanthus with its compact head of dark violet blue flowers is a garden standout! The buds emerge almost black and are held erect atop 18-inch stems, slowly elongating and finally becoming pendulous as they open. This selection makes a good container plant and its bright green strap-like foliage offers great texture when planted in small groupings in the landscape. Reaches 24 to 36 inches tall.

Azara microphylla

Box-leaf Azara

Item #4977

Zone: 7 - 10

This small evergreen tree will shine in the landscape, featuring small glossy green leaves and attractive columnar habit. Mature plants have gracefully layered branches. In mid-to-late winter, tiny clusters of creamy white, highly scented flowers. Quick to establish and superb for use in informal hedging and under highly branched trees.

The Dan Hinkley Plant Collection®

New

Monrovia
Exclusive

Azara microphylla 'Variegata' **Variegated Box-Leaf Azara**

Item #4978

Zone: 8 - 10

Tiny evergreen leaves, broadly variegated with creamy white, accentuate the graceful form of this choice selection. Arching branches bear clusters of tiny, intensely scented spring flowers, excluding a white-chocolate like fragrance. Orange berries follow for late summer and fall interest. This is an outstanding choice for a small tree, effortless espalier, or container specimen. Site in a sheltered location in cool sun or part shade. Reaches 15 to 25 feet tall and eight to 10 feet wide.

Azara Serrata Andean Gold™ **Andean Gold™ Saw-toothed Azara**

Item #4979

Zone: 7 - 10

This extremely fast growing evergreen tree or large shrub will reach 15 feet tall. Its rounded, glossy green foliage is smothered by clusters of bright golden flowers in early summer. This superior selection was made by Dan Hinkley from his Chilean collections. Sensational as a singular specimen or as a hedge or screen.

Beesia deltophylla **Beesia**

Item #5002

Zone: 6 - 8

When Dan Hinkley collected seeds in China over 15 years ago, he was immediately intrigued by this species, convinced this selection would be appreciated for its exceptionally shiny, green to gunmetal blue heart-shaped leaves and pretty star-shaped flowers in mid to late spring. This fuss-free evergreen groundcover is excellent filler for shady understory spaces or in woodland gardens. Slow growing to 18 to 24 inches tall and wide.

Monrovia
Exclusive

Callicarpa Summer Snow® **Summer Snow® Beauty Berry**

Item #9292

Zone: 6 - 10

A new and sprightly variegated form of Beauty Berry with leaves handsomely splashed in creamy-white, providing strong contrast to the clusters of pink lavender flowers produced in late spring to summer. Rose-purple berries appear in autumn. For best berry production, plant another of same species nearby as a pollenizer. Lovely in the mixed border for months of colorful foliage. Reaches five feet tall and four feet wide.

The Dan Hinkley Plant Collection®

Cestrum 'Orange Peel'

Orange Peel Jessamine

Item #5738

Zone: 7 - 9

A living bouquet of pure orange blossoms that, in warmer climates, last from early spring through the first hard frost. The tubular flowers have no fragrance during the day, but offer a sweet scent upon sunset. Low maintenance and thrives in hot weather. Perfect in mixed borders, butterfly gardens or espaliered on a sunny, low wall. Reaches six feet tall and wide.

Clematis montana rubens 'MonSichuan'

Pink-A-Boo® Anemone Clematis

Item #5539

Zone: 6 - 9

A superb selection of Clematis made by Dan Hinkley, with deep plum purple foliage on vigorous stems to 20 feet. In late winter and early spring it is smothered in an icing of white flowers with a pink blush. Fantastic grown as a groundcover or on a trellis, arbor or trailing through medium-sized trees. Foliage will exhibit best color if grown in full sun.

Coprosma 'Black Cloud'

Black Cloud Mirror Bush

Item #5135

Zone: 9 - 10

One of the hardest of this genus, this fantastic dark-leaved evergreen shrub from New Zealand offers excellent texture. Small, glossy purple-black foliage covers the handsomely patterned branches. Its tidy, rounded form is perfect as a small hedge, used in foundation planting or in containers. Prefers well-drained soil. Reaches tree feet tall and wide.

Deutzia setchuenensis var. corymbiflora

Chinese Snow Flower

Item #5642

Zone: 4 - 9

A superb and hardy deciduous shrub from Sichuan Province with finely textured gray-green foliage with slightly serrated edges. Clusters of small white star-like flowers appear for many weeks in late spring and summer. A spectacular flowering shrub ideal for a sunny border. Reaches four to six feet tall and wide.

The Dan Hinkley Plant Collection®

Disporum cantoniense 'Green Giant' **Chinese Fairy Bells**

Item #4983

Zone: 7 - 9

This magnificent perennial was found and named by noted plant explorer, Dan Hinkley in Sichuan Province, China. Its bamboo-like shoots emerge in shades of pink, white and green, maturing to deep green. Fragrant, creamy-white flowers unfurl like nodding bells with the new growth each spring; flowers are followed by glistening black fruit in fall. Reaches up to six feet tall and three to four feet wide.

Disporopsis pernyi 'Sichuan Jade' **Sichuan Jade Fairy Bell**

Item #2182

Zone: 7 - 9

This tough-as-nails evergreen perennial, collected by Dan Hinkley in China's Sichuan Province, is winter hardy with beautiful foliage and flowers. Lance-shaped leaves are a glossy, dark green with recessed, parallel veins. In spring, each leaf axil gives way to a superb white bell-like flower. Arching shoots 15 inches tall spread slowly to 24 inches wide in 10 years. This elegant, clumping perennial makes an attractive, weed-smothering groundcover, best suited to dappled shade.

Drimys lanceolata **Mountain Pepper**

Item #5061

Zone: 8 - 10

This refined, medium-sized evergreen shrub for mild climates, has creamy-green, perfumed blossoms resulting in glistening black fruit in autumn. The distinctive foliage – oval in shape and a deep green – is held along astoundingly beautiful red young stems making a fantastic hedge or specimen in the landscape. Prefers moist, well-drained soil. In colder areas, chose a sheltered spot away from wind. Will reach 10 to 15 feet tall and 10 feet wide.

Monrovia
Exclusive

Drimys winteri var. chiloense Pewter Pillar® **Pewter Pillar® Winter's Bark**

Item #4984

Zone: 7 - 10

Dan Hinkley selected this Chilean evergreen tree for its tight columnar habit and handsome leaf under-surface of silvery white. Bold glossy green leaves are clad to upright stems rising to 20 feet, while very pretty clusters of white flowers are presented at the end of each branch in late winter. A distinctive candidate as an unclipped hedge. Tree of the year at 2010 Farwest Show.

The Dan Hinkley Plant Collection®

Holboellia coriacea 'Cathedral Gem' **Cathedral Gem Sausage Vine**

Item #5636

Zone: 7 - 10

This durable easy-to-grow vine has thick, glossy evergreen foliage. Abundant clusters of creamy white buds emerge in late winter, opening to highly perfumed pendulous blossoms of dusky mauve. Large lavender-pink sausage-like fruit are displayed in summer. Vigorous stems to 25 feet long are ideally situated on an arbor or trellis near pathways, patios and garden entrances so the attractive flowers and intoxicating fragrance can be enjoyed up close.

Semi-evergreen in colder zones.

Holboellia latifolia 'Ritak' **Ritak Sausage Vine**

Item #5637

Zone: 6 - 10

This superior selection was collected and named by Dan Hinkley in remote Northeastern Nepal near the village of Ritak, at over 10,000 feet elevation. Clusters of purple-lavender, cinnamon-scented flowers appear from late March to May, often followed by large, fleshy lavender-pink fruit.

Monrovia
Exclusive

Hydrangea angustipetala 'MonLongShou' Golden Crane® **Golden Crane® Hydrangea**

Item #6383

Zone: 6 - 10

This precocious Hydrangea, with large lacecaps of white and chartreuse, not only presents its flowers in late spring – the earliest of all Hydrangeas to blossom – but is highly scented, a trait very rare in Hydrangeas. The jasmine-like scent will perfume an entire garden. This selection will blossom on new growth, however for best spring display of flowers do not prune after early September. This superb selection was made by Dan Hinkley from seed collected in Southern Sichuan Province, China. Reaches five feet tall and wide.

New

Hydrangea aspera Plum Passion® **Plum Passion® Hydrangea**

Item #5645

Zone: 7 - 10

This first-ever purple-leaved Hydrangea is an exciting addition to American gardens! Discovered in China, this unique shrub was brought to us by plant explorer Dan Hinkley. Foliage is dark purple on the upper side of the leaf and rosy purple on the underside. Wispy, mid-sized flowers are somewhat insignificant in contrast with the dramatic and colorful foliage. This deciduous shrub reaches five to six feet tall and wide.

The Dan Hinkley Plant Collection®

New

Leucosceptrum japonicum 'Golden Angel' **Golden Angel Japanese Shrub Mint**

Item #6032

Zone: 5 - 11

This stunning selection of native Shrub Mint will brighten up a shady woodland garden. Bold and vibrant golden foliage on a sturdy, hardy clumping perennial. Soft yellow flower spikes appear in the fall when most perennials are fading. This selection is ideally sited in shade. Very tolerant of heat and humidity. Grows two to three feet tall and wide.

Mukdenia rossii 'Crimson Fans' **Red-Leaved Mukdenia**

Item #4725

Zone: 4 - 9

Discovered by Dan Hinkley in nurseries in Japan, this interesting plant has fan-shaped leaves that emerge bright green in spring, gradually changing to bronze-green with bright red streaks. In early spring, white bell-shaped flowers dance above the foliage. A lush and colorful groundcover in woodland gardens or accent in borders, this deciduous perennial will slowly clump to one foot tall and wide.

New

Monrovia
Exclusive

Pachysandra axillaris 'Windcliff Fragrant' **Windcliff Fragrant Pachysandra**

Item #9319

Zone: 6 - 9

Fragrant white flowers appear in early spring, repeating again in autumn on this rarely encountered selection of Pachysandra brought to us by Dan Hinkley. Glossy foliage provides an attractive and unique evergreen groundcover for shade or partial sun spreading by rhizomes to form a lush carpet, reaching six to 12 inches tall.

New

Pittosporum illicioides 'MonToroko' **Formosan Fingers™ Pittosporum**

Item #9083

Zone: 7 - 10

An excellent, compact selection by Dan Hinkley this rare evergreen species was discovered in Taiwan. This handsome, upright evergreen shrub is clad with remarkably long and narrow eight-inch leaves on a moderately sized framework. Small, slightly fragrant creamy white flowers in spring result in resplendent crops of orange-red berries in autumn. Reaches up to six feet tall and wide.

The Dan Hinkley Plant Collection®

New

Pittosporum tenuifolium 'Tasman Ruffles' **Tasman Ruffles Pittosporum**

One of the best and hardest selections of the New Zealand native species, this evergreen shrub has clean, creamy white marginated foliage on a dense, conical framework reaching 10 feet tall. A candidate for one of the most distinctive, handsome, tidy and low-maintenance hedging plants in a contemporary garden setting.

New

Poliomintha bustamante 'Hinkley' **Hinkley Frosted Mint**

A rare, very drought tolerant subshrub with a lax groundcovering growth habit and aromatic gray-green foliage. Throughout the summer it is covered in relatively large tubular lavender-pink flowers. Best adapted to arid inner-mountain states. Will reach fifteen inches tall with a spread of up to three feet.

New

Schefflera taiwaniana 'Yuan Shan' **Yuan Shan Hardy Schefflera**

Item #4995
Zone: 7 - 10

Assuredly the hardest and rarest member of its clan! This unique Schefflera - one of the most exciting new introductions in recent memory - comes from the slopes of the highest mountain in Taiwan. It sports sensational, very textural, evergreen pinnate foliage along stems reaching 15 feet tall and wide. Prefers full sun or partial shade in cooler climates, and requires protection from harsh light in drier climates in the south. Superb as a container plant in colder climates, where it will require overwintering indoors.

New

Schefflera brevipedunculata **Hardy Schefflera**

Item #5293
Zone: 7 - 10

From the mountains of Vietnam comes this unique multi-stemmed shrub or small tree with umbrella-like palmate leaves. Stunning tropical foliage emerges pale fawn in spring, maturing to rich deep green. Mid-summer flowers are followed by purple fruit. Adds excellent texture to the landscape. Superb container plant in colder climates. Reaches 10 to 15 feet tall and wide; shorter if grown in a container.

The Dan Hinkley Plant Collection®

Solanum crispum 'Glasnevin'

Glasnevin Chilean Potato Bush

Item #4996

Zone: 8 - 11

A selected form of the Potato Vine with a non-stop offering of blue, yellow-centered flowers from March until late November. Hardy and evergreen, it can be grown as a free-standing shrub to 12 feet tall and 5 feet wide or espaliered on a wall or trellis. This excellent summer container plant may be overwintered in colder climates. Prune hard in late spring before growth resumes to rejuvenate from the base. Prefers well-drained soil.

Stachyurus salicifolia 'MonEmeri'

Sparklers® Willow-leaf Stachyurus

Item #5065

Zone: 7 - 10

One of the finest late winter flowering shrubs for temperate climates, its small, gracefully arching shrub brandishes highly textured bamboo-like, narrow evergreen leaves along stems to eight feet tall and wide. In March, a smothering of pendulous, axillary soft yellow catkins appear, making the entire concoction too breathtaking for words. Prefers well-drained soil.

Trochodendron aralioides

Taiwanese Parasol Tree

Item #5312

Zone: 7 - 10

This exceptional evergreen tree was selected from a Taiwanese collection by Dan Hinkley. Its tiered habit and glossy green foliage is without parallel. Chartreuse flowers, like tiny parasols, appear in terminal clusters in early summer. This vigorous grower is best suited to cooler maritime climates, where it will quickly provide structure in the garden. Reaches 15 feet tall and 12 to 15 feet wide.

The Best of Both Worlds!

Itoh Peonies are hybrids that have the best traits of both types of Peonies: the colorful and exotic flowers of tree Peonies, with the perennial growing cycle of herbaceous Peonies. Named for Toichi Itoh, the first breeder to successfully create such a hybrid, they are also known as intersectional hybrids. Itoh Peonies tend to resemble tree varieties, with a domed, vigorous growth habit and large double flowers with disease-resistant lacy, dark green foliage.

As many as 50 blooms will appear in a single season due to their ability to produce primary and secondary buds. Strong stems make them ideal as cut flowers. These beauties are prized for their intense colors, greater vigor and excellent resistance to Peony blight (*botrytis paeoniae*). Four Monrovia exclusives that are absolutely spectacular are Keiko (adored) and Yumi (beauty), Takara (treasure) and Misaka (beautiful blossom). The Japanese names reflect both the country of origin and their stunning beauty.

Monrovia
Exclusive

Paeonia (Intersectional Hybrid) x 'Pink Double Dandy'
Keiko™ (Adored) Itoh Peony

Item #4708

Zone: 4 - 8

Large, semi-double to double flowers measure up to six inches across and are held on strong stems above a compact mound of dark green foliage. As the flower matures, the dark lavender pink petals slowly fade to a soft pink, revealing a cluster of yellow stamens in its center. The flower is lightly fragrant. Prefers full sun to dappled shade. Hybridized by Don Smith, a leading Itoh Peony breeder. Clumps reach 24 to 30 inches tall and wide.

Itoh Peony®

Monrovia
Exclusive

Paeonia (Intersectional Hybrid) x 'Smith Opus 1' P.P.# 22,192 Item #5260
Misaka™ (Beautiful Blossom) Itoh Peony Zone: 4 - 8

Rare among intersectional hybrids, magnificent flowers appear orange when they first open, fading to a beautiful peachy yellow in full sun. Fully opened flowers can reach up to eight inches across and have a mild pleasant fragrance. Large contrasting dark-red central flares are extremely prominent. Prolific flowering habit is due to its higher than average number of secondary buds. This new cultivar is a vigorous grower with deep green, finely-cut foliage that is disease resistant. Reaches to 20 inches tall and wide. Hybridized by Don Smith, a leading Itoh Peony breeder.

Monrovia
Exclusive

Paeonia (Intersectional Hybrid) x 'Smith Opus 2' P.P.# 22,374 Item #5259
Takara™ (Treasure) Itoh Peony Zone: 4 - 8

Large flowers up to six inches across provide an unusual and exquisite ever-changing blend of colors. When opening, blooms appear mostly pink, but are actually light yellow heavily flushed with deep lavender pink. As flowers mature, the pink and yellow fades to pale white, with a large dark burgundy flare in the center. Blooms appear early May through end of June. Finely cut dark green foliage and a rounded form to three feet tall and wide make this an excellent landscape plant. Hybridized by Don Smith, a leading Itoh Peony breeder.

Monrovia
Exclusive

Paeonia (Intersectional Hybrid) x 'Yellow Doodle Dandy' P.P.A.F. Item #4707
Yumi™ (Beauty) Itoh Peony Zone: 4 - 8

The large, double flower, measuring seven to eight inches, is spectacular: masses of clear yellow petals form a perfect flower with a light and very pleasant fragrance. Blooms are held on strong stems just above a compact mound of dark green, trouble-free foliage. Plant is very hardy and prefers full sun to dappled shade. Excellent dark green foliage, it lasts well into autumn. Ideal for cut flowers. Moderate growing 24 to 30 inches tall and wide. Hybridized by Don Smith, a leading Itoh Peony breeder.

Attractive as Ornamentals and Prolific Fruit-Bearing, too!

To meet consumer demand, Monrovia continues to add to its edible line with delicious new offerings with something for all climate zones and taste buds. We are pleased to partner with another outstanding breeder, Fall Creek® Farm and Nursery, to bring you three exciting selections from their new *BrazelBerries™* collection. This breeding program focuses on berry varieties that are easy to grow, with exquisite ornamental qualities and amazing fruit. Each selection has successfully passed rigorous trialing across many geographic regions and growing situations.

Tired of dealing with thorny rambling Raspberry bushes? Raspberry Shortcake™ is a revolutionary thornless dwarf Raspberry that is well-suited for large containers. It requires no staking, no companion pollination, has sturdy upright canes and provides plenty of tasty berries. If you are looking for striking foliage color in a compact form, new Blueberry Peach Sorbet™ is a four-season show stopper. Foliage emerges peach, turning pink, then orange and finally emerald green. Perfect as a small hedge or container plant. And despite its diminutive size, super dwarf Blueberry Jelly Bean™ is a prolific producer of juicy fruit in mid-summer, with attractive red-tipped foliage.

Fig

Ficus carica 'Black Jack' **Black Jack Fig**

This handsome heat-loving tree produces a heavy crop of tasty brownish-purple fruit twice each year – in late spring and late summer. Its medium size works well for screening or background use. Light annual pruning is recommended to reveal its attractive structural form. A moderate grower to 15 to 25 feet tall and wide. Deciduous.

Item #3672
Zone: 7 - 9

Edibles

Ficus carica 'Brown Turkey'

Brown Turkey Fig

This handsome heat-loving tree produces a heavy crop of tasty brownish-purple fruit twice each year – in late spring and late summer. Its medium size works well for screening or background use. Light annual pruning is recommended to reveal its attractive structural form. A moderate grower to 15 to 25 feet tall and wide. Deciduous.

Item #3678

Zone: 7 - 9

Ficus carica 'Celestial'

Celestial Fig Tree

This small- to medium-sized cultivar is prized for its vigorous growth, improved resistance to cold and bountiful harvest. It produces small, sweet figs that mature and ripen in mid-June. The fruit, with its purplish-brown colored skin and white flesh, is of excellent quality. Reaches five to 10 feet tall and wide.

Item #6648

Zone: 7 - 11

New

Ficus carica Corky's Honey Delight™

Corky's Honey Delight™ Fig

Brought to Monrovia by Walter Anderson Nursery, this exceptional semi-dwarf Fig was originally discovered in the early 1940s in San Diego by the late Lawrence Andersen (Uncle Corky). Prized for its vigorous growth habit and bountiful fruit production, it typically yields two crops of succulent green Figs each season. Amber colored flesh is sweet and flavorful with a back-note of honey. Fruit matures and ripens in mid-June, followed by a second crop in late August or September. This fairly fast growing small tree is adaptable and has proven to perform exceptionally well in mild coastal areas. Reaches 10 to 12 feet tall and wide. Deciduous.

Item #7760

Zone: 7 - 10

Ficus carica 'Kadota'

Kadota Fig

This attractive heat-lover produces a reliable crop of sweet greenish-yellow fruit each fall. Although the lemon yellow fruit may be less decorative than darker varieties, it is just as delicious. Its large exotic leaves fit well in tropical gardens. This strong grower needs little pruning and will reach 15 to 25 feet tall and wide. Prefers full sun. Deciduous.

Item #3679

Zone: 7 - 9

Ficus carica 'Mission'
Mission Fig

Item #3681
Zone: 7 - 9

One of the most popular Figs in California and the Southeast. This large tree bears especially sweet purplish-black fruit in summer. Adapts well to all areas but is best suited to hot dry inland regions. Needs a light annual pruning to maintain its silhouette. Moderate grower to 20 to 35 feet tall and wide. Deciduous.

Ficus carica 'Peter's Honey'
Peter's Honey Fig

Item #3674
Zone: 7 - 9

Sweet greenish-yellow fruit with wonderful dark amber flecks adorn this mid-sized variety in summer. Peter's Honey needs a hot exposure for fruit to ripen in coastal areas. A moderate grower to 15 to 25 feet tall and wide. Deciduous. This fig originated in Sicily and is a must-have for Mediterranean gardens.

Grapes

Vitis vinifera 'Cabernet Sauvignon'
Cabernet Sauvignon Grape

Item #6751
Zone: 7 - 10

One of the world's most widely recognized red wine Grape varieties, Cabernet Sauvignon is grown in nearly every major wine producing country in the world. It produces tasty dark red fruit and superior wine made from grapes grown in warmer regions. One of the most cold hardy and disease resistant varieties of *V. vinifera*, it's popularity is often attributed to its ease of cultivation. The Grapes have thick skins and the vigorous vines are hardy and resistant to rot and frost. Use this vine to cover an arbor, arch a walkway, or shade a terrace, growing 10 to 20 feet each year.

Vitis vinifera 'Chardonnay'
Chardonnay Grape

Item #6752
Zone: 7 - 10

Possibly the most popular of all white wine grapes, Chardonnay is prized for making premium still and sparkling wines around the world, including Champagne. Abundant clusters of tiny yellow-green grapes ripen in fall. This multi-stemmed deciduous vine has a vigorous twining, trailing habit, growing 10 to 20 feet each year. Useful as a screen for arbors or trailing along fences. Somewhat tolerant of urban pollution. Deciduous..

Edibles

Vitis vinifera 'Merlot'

Merlot Grape

Item #6753

Zone: 7 - 10

A popular table wine grape, featuring large tart bright burgundy-purple fruit in fall. Its abundant clusters of grapes are excellent for wine making. Merlot has green foliage throughout the season with the lobed leaves turning yellow in fall. This self-pollinating variety does not require a second plant nearby to set fruit. This vigorous vine works well as a screen for arbors or trailing along fences. Prefers full sun and requires regular pruning. Reaches 10 to 20 feet long.

Vitis vinifera 'Pinot Noir'

Pinot Noir Grape

Item #6754

Zone: 7 - 10

Pinot Noir Grapes, chiefly associated with the Burgundy region of France, are grown around the world, performing well in cooler regions. Tightly clustered dark purple fruit is widely considered to produce some of the finest wines in the world. Pinot Noir grapes need warm days and cool nights for optimum growth. Vigorous vines grow 10 to 20 feet each year.

Vitis vinifera 'Zinfandel'

Zinfandel Grape

Item #6755

Zone: 7 - 10

This wine Grape has thin-skinned purple to black fruit arranged in large, tight clusters on short stems. Ripens fairly early, producing juice with high sugar levels. The vines are quite vigorous, growing 15 to 25 feet each year, and thrive in warm climates. If weather conditions permit, the Grapes may be late harvested to make dessert wine.

Kiwi

Actinidia arguta 'Issai' (Self Fertile Female)

Hardy Kiwi Vine

Item #0139

Zone: 4 - 8

A vigorous twining vine needs no pollenizer plant to produce an abundance of delicious, smooth-skinned fruit. This climber offers glossy foliage and fragrant white blooms in early summer, making it a showy landscape selection. Fast growing vines reach up to 25 feet and are attractive on an arbor or trellis. Deciduous.

Actinidia chinensis 'Tomuri' (Male)
Kiwi Vine

Item #0146
Zone: 7 - 9

A beautiful landscape specimen on its own, this vigorous-growing deciduous vine serves as a pollinator for fruiting female varieties. Large, creamy-white flowers with an extended bloom period. Fast, twining grower to 30 feet long.

Actinidia chinensis 'Vincent' (Female)
Vincent Kiwi Vine

Item #0141
Zone: 8 - 9

Vigorous-growing vine produces tasty, egg-size fruit that mature in late autumn. Needs little winter chill and is ideal for milder climates. Flowers open creamy white and fade to buff in late spring. Requires a male-flowered vine to produce fruit; we recommend 'Tomuri'. Deciduous. Fast twining grower up to 30 feet long.

Pomegranate

Monrovia
Exclusive

Punica granatum 'Smith' P.P.# 16,578 Angel Red®
Angel Red® Pomegranate

Item #6801
Zone: 7 - 11

This unique variety has exceptional qualities that make it simply the best Pomegranate on the market. A heavy crop of large, vivid red fruit ripens in early fall, having less pulp and higher juice content than any other variety. Best of all, the seeds are soft enough to be eaten! A beautiful landscape specimen to 10 feet tall and wide, with striking orange-red summer flowers on upright, fountain like branches.

Edibles

Punica granatum 'Wonderful' Fruiting Pomegranate

Item #6745

Zone: 7 - 11

This improved fruiting variety makes a beautiful landscape specimen that bears delicious fruit! Fountain-like, upright branches display large orange-red blooms in summer and large, burnished red fruit in early fall. A culinary staple in Spanish and Middle Eastern cuisine, the pomegranate has emerged as a popular source of Vitamins C and B5, potassium and antioxidant polyphenols. This is the same variety as the popular brand of commercial pomegranate juice. A versatile plant that showcases well as a great shrub, small tree or espalier growing up to 10 feet tall and wide. Needs heat to produce fruit.

Sweet-Bay

New

Monrovia
Exclusive

Laurus nobilis 'Monem' Emerald Wave® Sweet Bay

Item #2147

Zone: 8 - 11

Wavy edged, emerald green leaves are stunning on this robust variety of Sweet Bay. Serrated foliage is strongly fragrant with a trace of cinnamon, and it can be used as flavorful seasoning. Slender, upright form grows slowly and gracefully into a small pyramidal tree. Ideal for shearing into a formal hedge or topiary form. Good in containers. Slow growing to 12 to 15 feet tall as shrub; to 20 to 35 feet tall and 15 to 20 feet wide as a tree. Evergreen.

Rosemary

Rosmarinus officinalis 'Arp' Arp Rosemary

Item #2049

Zone: 6 - 10

More cold-hardy than most, it quickly forms an upright hedge of aromatic needle-like foliage. Profuse clear-blue flowers add to the effect. Takes to pruning well for small topiaries, but will reach up to six feet tall, two to four feet wide without pruning. Good flavor for cooking. Evergreen.

Rosmarinus officinalis 'Barbecue'
Barbecue Rosemary

Item #2130

Zone: 8 - 10

Selected for its unusually upright stiff twigs that perform beautifully as savory kabob skewers, Barbecue's foliage maintains an especially good flavor and aroma for cooking. When planted, quickly forms an upright hedge of aromatic needle-like foliage covered with blue flowers in summer. Tolerates pruning for a plentiful harvest. This evergreen shrub is a moderate grower to four to six feet tall and two to three feet wide.

Rosmarinus officinalis 'Huntington Carpet'
Huntington Carpet Rosemary

Item #7032

Zone: 8 - 10

A beautiful carpet of deep blue flowers backed by fragrant foliage forms a small, attractive spreading groundcover. Useful in erosion control. Foliage can be used as a flavorful spice in cooking. Good shrub for cascading in planters and over retaining walls. Fast growing one to two feet tall and up to eight feet wide. Evergreen.

Rosmarinus officinalis 'Roman Beauty' P.P.# 18,192
Roman Beauty Rosemary

Item #4136

Zone: 8 - 10

Cascading from a container or over a rock wall, this tidy mounding form is a great addition to any Mediterranean, rock, herb or container garden. Foliage can add flavor to cooking as well as aroma to potpourri or beauty to flower arrangements. Grows 10 to 12 inches tall and slightly wider. Evergreen.

Blueberry/Huckleberry/Lingonberry

Vaccinium angustifolium 'Burgundy'
Burgundy Wild Lowbush Blueberry

Item #3795

Zone: 3 - 7

Delicious, small, "wild-flavored" berries ripen in summer following the profusion of white blooms. Distinctive burgundy new growth matures to gray-green, then bright orange and red in fall. A nice groundcover or low border. Compact shrub one foot tall and three feet wide. Deciduous.

Edibles

Monrovia
Exclusive

Vaccinium corymbosum 'FLX – 2' P.P.# 19,381 **Bountiful Blue® Blueberry**

Item #5623

Zone: 6 - 10

This award winning selection has the bluest foliage of any blueberry we've seen! Pink-blushed white flowers are followed by an abundant crop of large, sweet, juicy berries each season. With a full, yet compact, rounded habit, this beautiful little shrub is perfect for massing in the landscape or featuring in containers. Self fertile; for a more prolific harvest, plant a pollenizer such as 'Sunshine Blue' nearby. Requires only 150-200 chill hours. Semi-evergreen in warm climates.

Vaccinium corymbosum 'Chandler' (Northern Highbush) **Chandler Midseason Blueberry**

Item #8036

Zone: 4 - 7

Holding the distinction of being the world's largest Blueberry, Chandler is a vigorous, upright, well branched plant with consistent productivity in areas where winters are not exceptionally severe. Chandler is a mid-to late-season variety, ripening over a prolonged period, providing an extended harvest of flavorful, fresh picked fruit for up to six weeks. Excellent as a hedge or container specimen in the landscape. Recommended chill: 800 – 1000 hours. Reaches five to seven feet tall and four to five feet wide.

New

Vaccinium corymbosum Jelly Bean™ P.P.A.F. **Jelly Bean™ Blueberry**

Item #8170

Zone: 4 - 8

One of three inaugural introductions from the BrazelBerries™ Collection by Fall Creek® Farm & Nursery in Oregon, this cold-hardy compact little gem of a Blueberry offers elegant, rich green foliage with hues of red. Jelly Bean™ produces bumper crops of large, delicious berries in mid-summer, with super sweet flavor like homemade blueberry jelly. Exceptional, compact form makes a great little hedge or stand-alone plant, perfect for patio containers. This dwarf shrub reaches only one to two feet tall and wide.

Vaccinium corymbosum 'Jubilee' (Southern Highbush) **Jubilee Blueberry**

Item #3448

Zone: 5 - 9

Abundant crops of sky-blue, medium large, very sweet fruit mature mid-season from late summer through fall. This attractive, upright shrub was selected for its ability to perform well in heavier soils through summer and has shown resilience to sudden winter cold. Attractive blue-green foliage remains evergreen in mild winters or turns yellow-orange before falling in cold climates. Reaches four to five feet tall and wide. Recommended chill: 500 hours.

Vaccinium corymbosum 'Northland' (Northern Highbush)
Northland Midseason Blueberry

Item #7340
Zone: 3 - 7

This cold hardy and vigorous Blueberry produces an abundance of small dark blue fruit. Its compact size is perfect for smaller gardens. Produces petite white bell-shaped flower clusters in spring, with bright green leaves that turn to orange in fall. Prefers acidic soil. Deciduous. Moderate grower to six feet tall and five feet wide. Recommended chill: 800 – 1000 hours.

Vaccinium corymbosum 'Patriot' (Northern Highbush)
Patriot Early Season Blueberry

Item #7374
Zone: 3 - 7

Prized not only for its early crop of large, sweet blueberries, but also for its profusion of pink-tinged white flowers. Multi-stemmed shrub has lovely yellow, bronze and red fall color. An excellent hedge or specimen. Deciduous shrub growing five to eight feet tall and wide. Recommended chill: 800 – 1000 hours.

New

Vaccinium corymbosum Peach Sorbet™ P.P.A.F.
Peach Sorbet™ Blueberry

Item #8171
Zone: 5 - 10

This new compact Blueberry from the Brazelberries™ collection is a four-season showstopper, the result of an extensive breeding program at Fall Creek® Farm and Nursery. Stunning foliage ranges from peachy pink to orange to emerald green. In spring, white, bell-shaped flowers give way to an abundant summer crop of sweet fruit. In mild climates, Peach Sorbet™ is evergreen, with rich eggplant purple winter foliage. Winner of the 2012 New Varieties Showcase at the largest industry tradeshow, Farwest. Reaching only two feet tall and wide, it is an outstanding choice for the landscape or patio.

Vaccinium corymbosum 'Sharpblue' (Southern Highbush)
Sharpblue Early Season Blueberry

Item #2176
Zone: 7 - 10

Considered one of the best varieties for Southern regions, Sharpblue produces well in areas that receive only 200 hours of chilling. Remaining nearly evergreen in mild climates, this attractive, upright shrub produces early in the season, often continuing to bloom and set excellent dark blue, medium-sized fruit over an extended period. Reaches five to six feet tall and wide.

Edibles

Vaccinium x 'Misty' (Southern Highbush) **Misty Early Season Blueberry**

Item #2175

Zone: 5 - 7

Requires only 300 chill hours to set sky-blue, medium large, very sweet fruit that matures early, from midsummer through fall. Attractive blue-green foliage remains evergreen in mild winters or turns brilliant red before falling in cold climates. Upright shrub growing five to six feet tall and wide.

Vaccinium x 'Northsky' (Half-high) **Northsky Blueberry**

Item #7373

Zone: 3 - 7

This exceptionally cold-hardy Blueberry produces a large midseason crop of exceptionally sweet, sky-blue fruit following the profusion of showy pink-tinged white flowers. Fall foliage is a colorful combination of yellow, bronze, orange and red. An excellent hedge or specimen, this dense shrub reaches two to three feet tall and wide. Recommended chill: 800 – 1000 hours.

Vaccinium x 'O'Neal' (Southern Highbush) **O'Neal Blueberry**

Item #2173

Zone: 5 - 9

Often considered to have the best flavor of the Southern highbush, large dark blue fruit matures very early from summer to early fall. Needs 400 hours of chill. Evergreen foliage in mild winters or turns brilliant red before falling in cold climates. Rounded, spreading shrub growing up to five feet tall and six feet wide.

Vaccinium x 'Southmoon' P.P.# 9,834 (Southern Highbush) **Southmoon Blueberry**

Item #3637

Zone: 6 - 9

Delicious, large, sky-blue fruit ripens in early summer. Is highly productive in areas where it will receive as few as 500 hours of winter chill. White bell-shaped flowers and colorful fall foliage are added ornamental benefits. Moderately vigorous, upright shrub growing up to six feet tall and wide. Deciduous.

***Vaccinium x 'Sunshine Blue' (Southern Highbush)
Sunshine Blue Blueberry***

Item #2174

Zone: 5- 10

Regarded as one of the best low-chill Blueberries for Southern regions, this selection is ideal for backyard fruit production. It has ornamental value as well, with attractive blue-green foliage and hot pink to white flowers, followed by an abundant crop of great tasting fruit. This semi-dwarf shrub is perfect for large tubs. Self pollinating but yields best when planted with another variety. Recommended chill: 150 hours. Semi-evergreen.

***Vaccinium x 'Top Hat'
Top Hat Blueberry***

Item #3798

Zone: 3 - 7

This compact, cold hardy Blueberry provides a show of plentiful white flowers followed by delicious, pea-sized light blue fruit. Foliage becomes bright red and orange prior to dropping. Excellent for containers, creating a defined border or bonsai with its compact dwarf habit reaching only one to two feet tall and wide. Recommended chill: 1000 – 1200 hours. Deciduous.

***Vaccinium ovatum 'Thunderbird'
Thunderbird Evergreen Huckleberry***

Item #3797

Zone: 6 - 8

An attractive landscape shrub with intense red-bronze new leaves, maturing to deep green. A profusion of pink and white flowers lead to an abundant crop of tasty dark blue fruit. Use fruit for jams, pies, baking or fresh in cold deserts. Moderate growing, upright shrub to six feet tall and five feet wide. Evergreen.

***Vaccinium vitis-idaea 'Red Pearl'
Red Pearl Lingonberry***

Item #4875

Zone: 3 - 9

Abundant white spring flowers develop into large highly nutritious red berries with a sweet, acidic flavor. Fruit ripens in late summer and again in early fall, and are long-lasting on the plant. Forms a lush evergreen groundcover or border shrub that will reach 12 to 18 inches tall.

Blackberry

Rubus subgenus Rubus Watson 'Black Satin'

Black Satin Blackberry

Item #7033

Zone: 5 - 8

A thornless Blackberry native to California and Oregon, this prolific producer offers tasty, large black fruit that appears in midsummer of the second year. Small, soft-pink petals fade to white and precede fruit on arching, thornless canes. Tolerates heat well. Fast grower to five to six feet tall and wide. Deciduous.

Rubus 'APF-12' Prime-Jim® Blackberry P.P.# 16,989

Prime-Jim® Blackberry

Item #6787

Zone: 4 - 8

Finally, a primocane Blackberry that will make fruit on its first year canes! Tasty, medium-sized, firm berries and pretty white flowers in spring make this variety a standout. Offers an extended harvest from mid-June through frost. Great in containers. Will reach three to five feet tall and wide. Requires mildly acidic to mildly alkaline soil.

Boysenberry

Rubus ursinus x ideaus 'Thornless'

Thornless Boysenberry

Item #6991

Zone: 5 - 9

Delicious, large reddish-black fruit is easy to harvest from the thornless canes. Fruit appears on second-year canes in mid-summer. Remove fruiting canes after harvest, choosing the best new canes for next year's fruit. Plant this tasty berry against a fence for support, or grow as a free-standing shrub in a large kitchen garden. Rapid growing canes to five to six feet long. Deciduous.

Gooseberry / Currant

Ribes hirtellum 'Pixwell'

Pixwell Gooseberry

Item #5814

Zone: 3 - 8

Considered the best Gooseberry variety on the market today, this heavy bearer produces pale green fruit that turns pink when fully ripe in August. The fruit hangs on slender stems an inch below the branches where they are easy to pick – thus the name. The tasty fruit is often used in pies and jellies. This rounded glossy-leaved shrub is suitable as a hedge in open or shady areas. Easier to prune than other Gooseberries as it is practically thorn-free. Self-fruitful and should bear the first year after planting. Prefers well drained soil. Will reach three to four feet tall and wide.

Ribes rubrum 'Red Lake'

Red Lake Currant

Item #6825

Zone: 3 - 8

Clusters of large, bright red berries, delicious eaten fresh or for use in jams and jellies, ripen mid-July. Vigorous bushes are highly ornamental and can be used as a hedge or in small growing areas and containers, reaching three to five feet tall and wide. Deciduous. Self-fertile.

Raspberry

Rubus idaeus 'Canby Red'

Canby Red Raspberry

Item #7034

Zone: 4 - 8

This tasty, almost thornless Red Raspberry produces large, tasty bright red berries of good quality. Strong vigorous canes support the heavy crop of summer fruit. Ideal for freezing, canning, cooking, and fresh eating. Plant near a fence or wall for support or leave as a freestanding bush; rapid-growing canes will reach five to six feet long. Developed in Oregon and first introduced in 1953.

Edibles

Rubus idaeus 'Fall Gold'

Fall Gold Raspberry

Item #6784

Zone: 3 - 7

Named for its yellow-gold fruit that is extremely sweet, Fall Gold is similar to red Raspberries in all aspects but color. This upright thorny shrub provides an abundance of magnificent gold berries from mid-summer to early fall. Berries are excellent for eating, jams, jellies, cooking and baking. It has green foliage throughout the season and is self-pollinating so does not require another plant nearby to set fruit. Reaches four feet tall and up to three feet wide.

Rubus idaeus 'Heritage'

Heritage Raspberry

Item #7004

Zone: 4 - 8

Heritage is a classic name in Raspberries, the best selection for a fall crop! This ever-bearing vine will produce a summer crop, followed by an abundant September harvest of fruit. Unlike some varieties, Heritage will not fall to pieces if you delay picking the ripe fruit a day or two; it stays firm, juicy, and super-flavorful. Excellent eaten fresh or in jams. Rapid growing canes will reach five to eight feet long.

Rubus idaeus 'Indian Summer'

Indian Summer Raspberry

Item #7006

Zone: 4 - 9

This ever-bearing variety produces a small crop in late spring to early summer and a larger crop in early fall. The fruit is excellent for fresh eating or cooking. This selection adapts well to heavier soils and produces vigorous, rambling canes. Use as an edible security barrier along fence lines and in strips too narrow for fruit trees. Rapid growing canes reach five to eight feet long.

New

Rubus idaeus Raspberry Shortcake™ P.P.# 22,141

Raspberry Shortcake™ Dwarf Thornless Raspberry

Item #7938

Zone: 5 - 9

This exciting new dwarf, thornless red Raspberry from the BraZelBerries™ Collection has an endearing, rounded growth habit and is perfectly suited to large patio containers. It will fill out nicely, or spread slightly in the landscape, and requires no staking. Self fertile, yielding full-sized, nutritious and super sweet fruit in mid-summer. This showstopper will be a lovely addition to the balcony, patio or garden. Compact mound growing two to three feet tall, cascading or spreading slightly wider. Deciduous.

*Rubus idaeus 'Willamette'***Willamette Raspberry**

Item #7008

Zone: 5 - 9

Make room for this prolific producer of juicy Raspberries! This is a principal commercial variety, with very large, tasty dark red fruit appearing in midsummer of second year. Small white flowers precede fruit on erect canes. Provides support for this vigorous grower, which produces canes up to 10 feet long.

Strawberry

*Fragaria x ananassa 'Diamante' P.P.# 10,435*

Item #7152

Diamante Strawberry

Zone: 3 - 9

This high yielding, easy-to-grow Strawberry provides a bountiful harvest in spring, summer and fall. Large delicious bright red strawberries can be eaten fresh or baked into jams and pies. A popular selection, growing to one foot tall.

*Fragaria x ananassa 'San Andreas' P.P.# 19,975*

Item #7310

San Andreas Strawberry

Zone: 3 - 9

This recent release from the University of California produces high quality fruit early in the season, but keeps yielding throughout the summer. Fruit flavor and berry size are similar to Albion, with excellent overall disease resistance. Dainty, white flowers cover this fast growing selection from spring to early summer. This outstanding selection grows to one foot tall.

*Fragaria x ananassa 'Seascape' P.P.# 7,614*

Item #6836

Seascape Strawberry

Zone: 4 - 8

Seascape, a cross between popular varieties, Selva and Douglas, is very productive all season with large fruit and excellent sweet flavor. Developed by the University of California, this vigorous selection shows good disease resistance. Reaches 12 to 18 inches tall.

Edibles

Apple

Malus domestica 'Anna'

Anna Apple

Item #6109

Zone: 6 - 9

This Israeli selection has a remarkably low chill requirement. Large fruit has light greenish-yellow skin with a slight red blush. It is sweet, slightly tart, crisp with a creamy white flesh. This apple is a good Southern choice for fresh eating, apple sauce, or homemade pies.

Anna produces at an early age, ripening in June, and the fruit stores very well. Self-fertile, but a pollinator such as Dorsett Golden is recommended for best fruit production. Recommended chill: 200 – 300 hours. Reaches 20 to 30 feet tall and wide.

Malus domestica Fuji

Fuji Apple

Item #5895

Zone: 4 - 9

Fuji apples have it all – super sweet, super juicy and super crisp. Its appearance varies from yellow-green with red highlights to mostly red. The Fuji's spicy, crisp sweetness gives it exceptional eating quality. It keeps very well and is great for baking. Reaches 10 to 30 feet tall and 10 feet wide. Requires a mid-to-late blooming pollinator such as Granny Smith. Recommended chill: 350 – 400 hours.

New

Malus domestica 'Golden Delicious'

Golden Delicious Apple

Item #6104

Zone: 4 - 9

Great medium-sized tree with showy flowers in spring followed by bright golden fruit in the fall. Fruit is crisp and juicy, great for cooking as well as enjoying fresh off the tree. Golden Delicious is also a good pollinator for other apple varieties. Recommended chill: 600 - 700 hours. Grafted onto M111 semi-dwarf rootstock. Reaches 15 to 20 feet tall and wide; smaller size is easily maintained with pruning.

Malus domestica HoneyCrisp™

Honeycrisp™ Apple

Item #5898

Zone: 4 - 9

Developed by the University of Minnesota's prestigious Apple breeding program, Honeycrisp™ has large red fruit with exceptionally crisp texture and excellent flavor. Great for eating fresh, cooking and making cider. Stores well in cool conditions. Charming pinkish-white flowers in spring look lovely in the landscape. Moderate grower 12 to 15 feet tall and wide. Use a pollinator such as 'Red Delicious' or 'Empire' for best fruit set. Recommended chill: 800 hours.

Malus x domestica 'Granny Smith'

Granny Smith Apple

Item #6105

Zone: 5 - 8

Granny Smith, considered by many to be one of the best cooking Apples, has medium-sized fruit with a dark to pale green skin with distinctive whitish dots. Crisp, tart and juicy with a good balance of acids and sugars, it ripens in late September or October. Requiring only 400 to 500 winter chill hours and a longer growing season to mature the fruit, this variety is favored in the milder areas of Apple growing regions. Grafted onto M111 semi-dwarf understock. Reaches 15 to 20 feet tall and wide; smaller size is easily maintained with pruning.

Malus x domestica 'Red Delicious'

Red Delicious Apple

Item #5896

Zone: 5 - 8

This one's a classic – America's favorite snacking Apple. A medium-sized Apple, its heart-shaped fruit is bright red and sometimes striped. Prepare yourself for an amazing apple that is much tastier than the Red Delicious you find at the supermarket. These home-grown beauties are extra crunchy with a mildly sweet flavor. Harvest in September and October. Prefers well drained soil. Recommended winter chill: 900 hours. Reaches 10 to 25 feet tall and wide.

Apricot

Prunus armeniaca 'Chinese'

Chinese Apricot

Item #6743

Zone: 5 - 9

Chinese Apricot is an early-bearing, heavy-producing variety that is recommended for difficult climates prone to late spring frosts. The fruit has good flavor, texture and quality with yellow to medium-orange skin and flesh. Requires 700 hours of chilling. Reaches 20 to 30 feet tall and wide. Self-fruitful – no other pollenizer is needed.

Prunus armeniaca 'Harcot'

Harcot Apricot

Item #6741

Zone: 5 - 7

One of the best Apricots, its large fruit has a sweet, juicy, rich flavor. Its skin is an attractive yellow-orange. Pretty pink flowers appear in spring. This variety is perfectly suited for colder areas with its frost-hardy late bloom. Harcots are good for canning, cooking, or freezing. Grows 15 to 25 feet tall and wide. Requires 700 hours chilling.

Edibles

Prunus armeniaca Tropic Gold™

Tropic Gold™ Apricot

Item #6116

Zone: 7 - 9

Tropic Gold is an excellent choice for the mild winter areas of the South, as it will easily fruit in hot dry climates. It has medium-to-large sized orange fruit with a speckled red cheek. The Apricots are sweet and juicy when eaten fresh, and hold up well when canned or dried. This new outstanding low-chill Apricot tree is self-fertile and requires only 350 chilling hours to produce an abundant crop from June to July. Grows up to 15 feet tall.

Cherry

New

Prunus x 'Bing Cherry'

Bing Sweet Cherry

Item #6733

Zone: 5 - 8

One of the leading sweet Cherry varieties, Bing produces exceptionally large, dark mahogany fruit that is firm, sweet and juicy. Excellent for eating fresh, canning or preserves. Requires a pollenizer such as Stella or Ranier. Recommended chill: 700 - 900 hours. This selection is grafted onto vigorous, disease-resistant Mahaleb Cherry rootstock. Reaches 15 to 20 feet tall and wide; a smaller size is easily maintained with pruning. Deciduous.

Prunus avium 'Lapins'

Lapins Sweet Cherry

Item #6128

Zone: 6 - 8

In 1938, breeders crossed Van and Stella Cherries and came up with Lapins, a self-pollinating variety that produces large crops of delicious fruit almost one inch in diameter. Its purplish red flesh is firm and sweet. Good pollenizer for other sweet cherries. Showy pinkish-white flowers appear mid-spring followed by a prolific harvest from late June to early July. Is intolerant of deep frost or intense heat. Recommended chill: 900 hours. Reaches 15 feet tall and wide.

New

Prunus avium 'Stella'

Stella Sweet Cherry

Item #6141

Zone: 5 - 8

This popular and prolific Cherry offers showy white flowers in spring and superb, dark red, sweet fruit in summer. This is an excellent self-pollinating variety that can be used as a pollenizer for other sweet cherries. Recommended chill: 600 hours. Grafted onto vigorous, disease resistant Mahaleb Cherry rootstock. Reaches 15 to 20 feet tall and wide; smaller size is easily maintained with pruning.

Nectarine

New

Prunus persica var. nucipersica 'Fantasia'

Fantasia Nectarine

Item #6798

Zone: 6 - 9

One of the most adaptable varieties for home gardens. Bright pink flowers cover the branches in spring, providing showy color and attracting birds and butterflies. Its large, freestone fruit has red skin and bright yellow, firm flesh follows. Fruit ripens mid to late July. This is an ideal tree for mild winter areas. Recommended chill: 500 - 600 hours. Grafted onto semi-dwarf Nemaguard understock. Reaches 20 - 25 feet tall and wide; smaller size is easily maintained with pruning.

New

Prunus persica var. nucipersica 'Flavortop'

Flavortop Nectarine

Item #6142

Zone: 6 - 9

This very vigorous and heavy fruit-bearing tree offers Nectarines with exceptionally good flavor and sweetness. Its large freestone fruit has firm yellow flesh and a red skin. Fragrant pink flowers adorn the green foliage on this self-fruitful tree. Recommended chill: 600 - 700 hours. Grafted onto semi-dwarf Nemaguard rootstock. Reaches 20 to 25 feet tall and wide; smaller size is easily maintained with pruning. Deciduous.

New

Prunus persica var. nucipersica 'Snow Queen'

Snow Queen Nectarine

Item #6799

Zone: 7 - 9

This self-fruitful, low-chill white nectarine has the most satisfying, sweet flavor of any white nectarine to date! Attractive pink spring flowers produce firm red-tinged fruit with sweet white flesh. Dark green foliage has wonderful fall color. Grafted onto semi-dwarf Nemaguard understock. Reaches 20 to 25 feet tall and wide; smaller size is easily maintained with pruning. Recommended chill: 250-300 hours. Deciduous.

Edibles

Peach

Prunus persica 'Desert Gold'

Desert Gold Peach

Item #6144

Zone: 7 - 9

This very vigorous and heavy-bearing tree offers fruit with exceptionally good flavor and sweetness for such an early variety. Its medium-sized semi-freestone fruit has firm yellow flesh and yellow skin with a red blush. Fragrant pink flowers adorn the green foliage on this self-fruiting tree. Prefers full sun and tolerates heat and humidity. Reaches 15 to 30 ft. tall and wide. Requires 250 chill hours.

New

Prunus persica 'Gleason Early Elberta'

Gleason Early Elberta Peach

Item #6143

Zone: 5 - 9

Developed in Utah and introduced by Stark Nurseries in 1906, Gleason Early Elberta has proven to be a superior choice for the Western U.S. Its large fruit arrives two weeks earlier than those of its parent Elberta. The golden flesh of this freestone variety is delicious, and its tangy flavor is improved. It is one of the few yellow varieties that ripens satisfactorily when picked slightly green. The fruit is preceded by a showy spring display of fragrant pink flowers. Recommended chill: 800 hours. Grafted onto semi-dwarf Nemaguard understock. Reaches 20 to 25 feet tall and wide; smaller size is easily maintained with pruning.

New

Prunus persica 'Redhaven'

Redhaven Peach

Item #6735

Zone: 5 - 9

Redhaven produces an abundance of red-blushed, yellow skinned freestone fruit with firm, sweet yellow flesh. An excellent choice for canning, freezing, fresh eating and making jams and jellies. Clusters of fragrant pink flowers emerge from deep rose buds in early spring, and the foliage turns bright gold in fall, making this an attractive specimen for the landscape. This self-pollinating Peach will set a heavier crop if planted near another variety of the same species. Recommended chill: 800 - 900 hours. Grafted onto semi-dwarf Nemaguard understock. Reaches 20 to 25 feet tall; small size can be maintained with pruning.

Pear

Pyrus x 'Bartlett'

Bartlett Pear

Item #6149

Zone: 5 - 8

Sweet, tender and thin-skinned, Bartlett is excellent eaten fresh or for canning. The large fruit ripens in summer. Pretty white blooms cover tree in spring. Easy to grow and adaptable, Bartlett requires a pollenizer to produce fruit; we recommend Bosc or Anjou. Recommended chill: 800 hours. This fast grower reaches 15 feet tall and 12 feet wide.

Pyrus communis

Comice Pear

Item #6152

Zone: 3 - 9

Introduced in France in 1849, this favorite is often found in fancy fruit gift packs, and considered the best tasting Pear variety. Its large, greenish-yellow fruit is blushed with red and has a sweet, juicy flavor. Lovely, white blooms appear early-to-mid spring. Fruit can be harvested beginning in late September. This deciduous tree will reach 15 to 18 feet tall and 25 feet wide. It is self-fertile in the arid West, but produces much better with a pollenizer such as Bartlett in the more humid East. Requires 500 to 600 chilling hours.

Pyrus communis 'Beurre D'Anjou'

Beurre D'Anjou Pear

Item #6146

Zone: 5 - 9

Plant a Beurre D'Anjou Pear tree and you will be enjoying a bounty of fresh fruit with a soft, buttery texture. Its skin is green with a yellow blush. It is similar to D'Anjou but with larger leaves, shorter stems, and a slightly earlier bloom time. Best when pollinated by Bartlett or other Pears. Plan in a large container if space is at a premium and enjoy the white blossoms that precede the fruit each year. This hardy vigorous grower requires 700 chilling hours and reaches 10 feet tall.

Pyrus pyrifolia 'Hosui'

Hosui Asian Pear

Item #6163

Zone: 6 - 9

The best flavored of all Asian Pears, Hosui are very round, medium to large, and combining the flavor and sweetness of Pears with the crunchiness of crisp Apples. Their mild flavor is sweet and slightly tart. It needs other Pear trees to pollinate such as 20th Century or Bartlett. Cold hardy, drought resistant and heat tolerant, Hosui is a good choice for milder climates as it requires only 450 low chilling hours. This vigorous, willowy grower will reach 10 to 15 feet tall and 8 to 10 feet wide.

Plum

Prunus salicina 'Beauty'

Beauty Japanese Plum

Item #6167

Zone: 5 - 10

This smaller Japanese Plum tree offers a tasty crop of sweet flavorful fruit in mid-July - earlier than other selections. Each delicious Plum has bright red skin and amber tinged, red juicy flesh. Abundant white blooms appear in later winter through early spring. Prune heavily in winter, some in summer, and thin fruit for the best size and quality. This deciduous tree is self-fertile and will reach 12 to 15 feet tall. Prefers full sun. Requires 250 chill hours.

Prunus salicina 'Burgundy' Plum

Burgundy Japanese Plum Tree

Item #6168

Zone: 5 - 9

Burgundy Plum has medium-sized fruit with flesh that is deep red, mellow, and sweet covered with a reddish purple skin. An all around great plum, good for fresh eating, cooking, drying and in jams and jellies. It is self-fertile, so no need for another tree, especially important if space is at a premium. This Plum variety only needs 250 to 350 chill hours, making it an excellent choice for mild winter areas, yet it will take some cold. Ripens early July, but fruit will keep well on the tree until mid-August. Reaches 10 to 15 feet tall and wide.

Prunus salicina 'Ozark Premier'

Ozark Premier Plum

Item #6795

Zone: 6 - 10

Ozark Premier produces exceptionally large, semi-freestone plums that ripen in mid to late summer. Bright, red skinned fruit has good, slightly tart flavor. This attractive tree forms a nice canopy and produces a cloud of white blossoms in spring, providing a nice accent in the landscape. Satsuma Plum can be used as a pollenizer. Recommended chill: 800 hours. Reaches 10 to 20 feet tall and wide.

Prunus salicina 'Santa Rosa'

Santa Rosa Plum

Item #5996

Zone: 5 - 9

An all-time favorite home and commercial variety, Santa Rosa produces an abundant harvest of dark crimson fruit in mid-summer. Its firm flesh and a wonderfully pleasing flavor makes it an excellent choice for fresh eating or in preserves. This lovely accent or border tree provides a showy display of white flowers in spring. A pollenizer is not necessary, but fruit production will be increased when another Plum tree is planted nearby. Recommended chill: 400 hours. Moderate grower, reaching 20 to 30 feet tall and wide; smaller size can be maintained with pruning.

Succulents — Architectural Wonders of the Garden

They are fascinating to look at and especially easy to grow, even for first-time gardeners. Consumers are creating amazing containers and tucking succulents into dry corners of their garden. We have added more than 25 new selections to our succulent collection. A popular workhorse of the water-wise garden is Ice Plant which tolerates poor soil, heat, cold and is good for firescaping. The best news? It provides a pop of color with vibrant, long-lasting flowers. Fire Spinner® Ice Plant was discovered in the wilds of South Africa's East Cape and introduced by Delosperma guru Panayoti Kelaidis of the Denver Botanic Gardens. It has stunning tri-colored flowers in orange, magenta and purple. A fast spreading mat of succulent evergreen foliage keeps its shiny presence through winter. Sure to brighten up any rock garden with this 2012 Plant Select® Winner.

Monrovia is pleased to offer four sturdy and colorful new Aloes from the Retro Succulents® series. Carmine™ has pale green foliage tinged with reddish orange; Guido™ is pale green with creamy white edges; Sal™ is pale green with creamy white speckling; and Sunset™ is green with striking reddish-brown spots. Each selection is heat and drought tolerant when established and stunning in rock gardens or containers.

New

Aeonium canariense
Canary Island Pinwheel

Item #7909

Zone: 9 - 11

Velveteen-cloaked green rosettes with red tips add interesting texture to rock gardens and containers. This versatile, drought tolerant succulent performs well in dry shade to full sun; foliage color is more pronounced in sun. Mature plants produce masses of yellow blooms on long stems, which are attractive to bees and butterflies. Monocarpic rosettes die after flowering but are replaced by young offsets. Mature clumps can reach two feet tall and slightly wider.

Succulents

New

Aloe Carmine™

Retro Succulents® Carmine™ Aloe

Item #7780

Zone: 9 - 11

A striking succulent featuring orange-stippled pale green foliage and bright orange-red fringed leaf edges. This colorful, clumping hybrid Aloe is heat and drought tolerant when established, making a colorful addition rock gardens, and xeriscapes. Performs well in containers, indoors or out. A must-have for the succulent collector! Slow growing rosettes reach eight to 10 inches tall and wide.

New

Aloe Donnie™

Retro Succulents® Donnie™ Hybrid Aloe

Item #7781

Zone: 9 - 11

This handsome Aloe hybrid has rosettes of succulent leaves, spotted white with delicately toothed edges of deep pink to red. Very heat and drought tolerant when established. An ideal selection for a rock gardens and containers. Makes a fine addition to the succulent collection, and can be grown indoors or out. Slow growing, two to four inches tall and wide, spreading by clumps.

New

Aloe Guido™

Retro Succulents® Guido™ Aloe

Item #7778

Zone: 9 - 11

A stunning hybrid selection with rosettes of pale green foliage, stippled in creamy white with fringed leaf edges. This rugged, clump-forming succulent is exceptionally heat and drought tolerant when established, making it an ideal choice for dry borders, rock gardens, or containers. Suitable for indoor succulent collections.

New

Aloe Sal™

Retro Succulents® Sal™ Aloe

Item #7779

Zone: 9 - 11

Rosettes with pale green foliage and creamy white stippling form on this attractive succulent. Leaf edges are fringed in pale coral. This sturdy new selection is heat and drought tolerant when established. An ideal selection for rock gardens and containers and can be grown indoors or out. A great addition to succulent collections. Slow growing, six to eight inches tall and wide.

New

Aloe maculata

Soap Aloe

Native to South Africa, this rugged, solitary succulent provides striking texture and color year round by virtue of interesting foliage and flowers. Broad, flat spotted leaves vary in color depending on intensity of sunlight. In hot sun, the foliage is pinkish-red, and more bluish-green when planted in part shade. Showy flowers are born atop of a tall, multi-branched stalk and can range in color from bright red to orange-yellow. A great selection for rock gardens or containers. Foliage reaches 18 inches tall and 24 inches wide; blooms to 36 inches tall.

Item #7912

Zone: 9 - 11

New

Beschorneria yuccoides 'Flamingo Glow'

Flamingo Glow Mexican Lily

Offering striking form, color and contrast, this variegated selection features bright gold stripes along its flexible, unarmed leaves. Sturdy pink stalks rise above the foliage in summer, showcasing bright green pendulous flowers encased within red bracts. This drought tolerant Agave relative from Mexico is believed to be the hardiest of the Beschorneria species. Forms multiple rosettes, reaching three to five feet tall and wide.

Item #7914

Zone: 10 - 11

New

Delosperma 'P001S'

Fire Spinner® Ice Plant

Stunning tri-colored flowers of orange, magenta and purple cover a tight, fast spreading mat of succulent evergreen foliage. The flowers are most prolific in spring, reappearing throughout the summer. Apple-green foliage keeps its shiny presence through winter. A Plant Select® winner, this hardy and heat-loving ground cover is perfect for use in waterwise landscapes. Forms a carpet of flowers and foliage 2 inches high, spreading 12 to 18 inches.

Item #7874

Zone: 5 - 10

New

Echeveria agavoides 'Lipstick'

Lipstick Echeveria

This stunner has dense rosettes of bright green leaves with vivid reddish pink edges. A spine at each leaf tip is reminiscent of an Agave. Compact and ground hugging, this clumping succulent is beautiful in rock gardens and mixed succulent plantings. Ideal in containers. Drought tolerant once established. Clump forming, individual rosettes reach six inches tall and six to 12 inches wide.

Item #6921

Zone: 9 - 11

Succulents

New

Echeveria derenbergii **Painted Lady**

Item #7915

Zone: 9 - 11

Small rosettes of triangular shaped leaves with red margins are a perfect backdrop to the clusters of yellow flowers with red tips that bloom in spring. Native to Mexico, this Echeveria likes a bright location and good drainage. Its small, clumping form reaches less than a foot tall and wide, and attractive spring flowers make it ideal for container gardening or at the front of a dry, sunny border.

New

Echeveria elegans **Mexican Snowball**

Item #7916

Zone: 9 - 11

Providing striking color and texture, this blue-grey succulent forms tight rosettes which freely produce offsets to form small, dense mounds. Bright pink blooms on tall stems are adored by hummingbirds in spring and summer. One of the most useful Echeveria as a groundcover, spreading to fill an area quickly. Looks great in containers or as a houseplant. Clumping rosettes to eight inches tall, spreading to 12 inches wide.

New

Echeveria x Red Glo™ **Retro Succulents® Red Glo™ Echeveria**

Item #7783

Zone: 9 - 11

Deep pink to red ruffled edges adorn gray-green succulent rosettes, gradually forming clumps to add wonderful texture and color to rock gardens and low borders. Well suited to containers, both indoors and out. Heat and drought tolerant once established. Clump forming, individual rosettes reach six to eight inches tall and wide.

New

Echeveria setosa **Firecracker Echeveria**

Item #7379

Zone: 9 - 11

Compact and durable, this Mexican native has rosettes of slightly fuzzy, grey-green leaves. Slowly forms dense clumps which bear vivid red and yellow flowers in spring and early summer. Drought tolerant once established. Clumping to three to six inches tall by three to six inches wide.

New

Echeveria shaviana
Mexican Hens Echeveria

Item #6349

Zone: 9 - 11

An attractive and unusual succulent with short stemmed rosettes of blue-gray leaves that have very wavy crinkled margins that take on a pinkish tint if grown in bright light. Stems of pink flowers with yellow centers appear in late summer. Plant in full sun to light shade (requires some shade in hot interior climates) in a well drained soil. Clumping six to eight inches tall and up to twelve inches wide.

New

Graptopetalum paraguayense
Ghost Plant

Item #7784

Zone: 7 - 11

This small, rosette-forming succulent has grey leaves with a pinkish cast, lending a unique color contrast when paired with plants of darker hues. Individual leaves will root when broken off, eventually forming an attractive mass of rosettes. Thriving with little care, this is a perfect choice for the rock garden, tucked into the crevices of dry walls or spilling out of mixed containers. Forms trailing rosettes to six inches tall and three feet wide.

New

Othonna capensis
Little Pickles Ice Plant

Item #6970

Zone: 5 - 10

This evergreen perennial, forms a low dense mat of pudgy succulent, blue-green cylindrical stems resembling tiny pickles. Foliage is occasionally tinged with deep mauve. Small yellow daisy-like flowers emerge from pearl-sized deep pink buds, mid-spring into fall. Diminutive yet vigorous and carefree, this sturdy, sun loving ground cover is attractive in rock gardens and containers. Drought tolerant. Grows to two inches tall, spreading to eight inches wide.

Proven Winners

Plants that Just Scream Color – Again and Again!

The best plant breeders partner with Monrovia to bring exceptional new discoveries to market. For the past three years, Proven Winners has brought us more than 75 remarkable new introductions. Highlights this year include the exciting Bloom-A-Thon® Reblooming Azaleas. Enjoy up to five months of large blooms that first appear in April, and again in early July, continuing through fall until frost. The evergreen foliage is disease resistant, maintaining excellent color year-round. Monrovia is offering three dazzling colors – Pink, Red and White. A fourth selection, Lavender, will make its debut soon.

We love the Lo & Behold® Buddlejas and are delighted to be growing two fantastic new additions: Ice Chip Summer Lilac has pure white fragrant flowers against a backdrop of compact mounds of silvery foliage; while Lilac Chip Summer Lilac has soft, lavender-pink fragrant flowers. Each blooms continuously from summer to fall without deadheading! They each have nice compact habits and do not set seedlings.

New

**Rhododendron 'RLH1-2P8' P.P.# 21,477
Bloom-A-Thon® Pink Double Reblooming Azalea**

Item #7876

Zone: 6 - 9

Twice as nice as other azaleas! Large, double pink flowers appear in spring, then rebloom in mid-summer, continuing through fall until hard frost. Even high summer temperatures don't stop this beauty from producing loads of late summer and fall flowers. The evergreen foliage is disease resistant, and maintains excellent color year-round. Performs well in containers. Great for borders, foundation plantings and woodland gardens. Grows three to four feet tall and wide.

New

Rhododendron 'RLH1-1P2' P.P.# 21,562

Bloom-A-Thon® Red Reblooming Azalea

Item #7877

Zone: 6 - 9

Enjoy up to five months of blooms with this wonderful selection! Large rich pink flowers appear in spring, then rebloom in mid-summer, continuing through fall until hard frost. Even high summer temperatures don't stop this beauty from producing loads of late summer and fall flowers. The evergreen foliage is disease resistant and maintains excellent color year-round. Performs well in containers. Great for borders, foundation plantings and woodland gardens. Moderate grower to three feet tall and slightly wider.

New

Rhododendron 'RLH1-3P3' P.P.# 21,512

Bloom-A-Thon® White Reblooming Azalea

Item #7878

Zone: 6 - 9

A new, unique white reblooming Azalea for season long color! Crisp white blooms with heavily ruffled edges appear in mid-spring, providing a show again in midsummer, extending through the fall until the first frost. The evergreen foliage is disease resistant and maintains excellent color year-round. An exceptional choice for container or landscape, Bloom-A-Thon® White is the shortest in the series, reaching only two to three feet tall and slightly wider.

Berberis thunbergii 'Maria' P.P.# 18,082

Sunjoy® Gold Pillar Barberry

Item #7474

Zone: 4 - 7

Similar in shape to Helmond Pillar Barberry, but with bright golden foliage and red new growth. Burn-resistant yellow foliage turns bright orange-red in fall. Distinctive columnar habit adds an elegant vertical line to gardens. Reaches 36 to 48 inches tall and 18 to 24 inches wide.

Buddleja Lo & Behold® 'Blue Chip' P.P.# 19,991

Lo & Behold® Blue Chip Dwarf Summer Lilac

Item #7441

Zone: 5 - 9

This breakthrough Buddleja variety has all the fragrance and butterfly appeal of traditional varieties in a small, easy to maintain package. Blue Chip stays under three feet tall without any pruning, and blooms continuously from mid-summer to mid-fall. It is sterile and will not set seedlings. Reaches 24 to 36 in. tall and wide; may grow slightly larger in warmer regions.

Proven Winners

New

Buddleja Lo & Behold® 'Ice Chip' P.P.A.F. Can. P.B.R.A.F.

Lo & Behold® Ice Chip Summer Lilac

Item #8081

Zone: 5 - 9

Pure white flowers jump out against a backdrop of compact mounds of silvery foliage.

This new addition to the Lo & Behold® series will bloom continuously from summer to fall without deadheading! The fragrant bloom spikes attract butterflies. Dwarf, spreading habit makes it the perfect ground covering plant. Sterile; will not set seedlings. Reaches 18 to 24 inches tall and 24 to 36 inches wide. Deciduous.

New

Buddleja Lo & Behold® 'Lilac Chip' P.P.A.F. Can. P.B.R.A.F.

Lo & Behold® Lilac Chip Summer Lilac

Item #8079

Zone: 5 - 9

This new addition to the Lo & Behold® series is more compact than 'Blue Chip', with a dwarf, slightly spreading habit. Soft, lavender-pink fragrant flowers bloom provide color summer until frost, without deadheading! Fragrant bloom spikes attract butterflies. A good groundcover for mass planting, perennial gardens and mixed borders. This sterile selection will not produce seedlings. Reaches 18 to 24 inches tall and 24 to 30 inches wide. Deciduous.

Buddleja Lo & Behold® 'Purple Haze' P.P.A.F.

Lo & Behold® Purple Haze Summer Lilac

Item #7741

Zone: 5 - 9

Purple Haze has a unique, horizontal, low spreading habit with feathery, deep green leaves. Dark purple-blue flowers radiate outward and downward. This attractive, easy-care dwarf shrub offers continuous blooming from mid-summer through fall and is sterile so it will not produce unwanted seedlings. A must for any butterfly garden. Fast growing to two to three feet tall and three feet wide. Prefers well-drained soil.

Buddleja x 'Miss Molly' C.B.R.A.F.

Miss Molly Summer Lilac

Item #7739

Zone: 5 - 9

If you think Miss Ruby has awesome flower color, Miss Molly pushes the color spectrum with blooms boasting rich hues of dark Sangria-red. Flowers appear from July until frost, providing a real treat for hummingbirds and butterflies. Nice and neat with compact branching and gray-green foliage. This selection will not produce unwanted seedlings. Reaches four to five feet tall and three to four feet wide.

Buddleja x 'Miss Ruby' P.P.A.F., C.B.R.A.F.

Item #7440

Miss Ruby Summer Lilac

Zone: 5 - 9

This newer summer lilac is noted for its compact habit and remarkably vivid blooms. The distinctive magenta flowers are fragrant and more vibrant than any other Buddleja variety. Excellent used in perennial beds, wildlife gardens and mixed borders. It is sterile and will not produce unwanted seedlings. Reaches four to five feet tall.

Caryopteris incana 'Jason' P.P.A.F., C.B.R.# 2,316

Item #2987

Sunshine Blue® Bluebeard

Zone: 5 - 11

If you like bold, bright color, this is the plant for you! Amethyst blue flowers contrast with the bright yellow foliage for an outstanding late summer to early fall display. This attractive mounding shrub is stunning in mixed borders, perennial gardens and adored by butterflies. Reaches three to four feet tall and wide.

Caryopteris clandonensis 'Miniblue' P.P.# 14,674, C.B.R.# 2,317

Item #2988

Petit Bleu™ Bluebeard

Zone: 5 - 11

Tight, compact growth with excellent branching and dark, green glossy foliage. Deep blue flowers appear from late summer to fall and are darker than other Caryopteris varieties. Attracts butterflies to late summer gardens. Perfect for use in mixed borders or perennial beds. Reaches 24 to 30 inches tall.

Chaenomeles speciosa 'Orange Storm' P.P.# 20,950, C.B.R.A.F.

Item #7444

Double Take™ Orange Storm Flowering Quince

Zone: 5 - 8

The Double Take™ series gives Quince a complete makeover starting with a spectacular display of big, double flowers in early spring. The flower color is a bold orange. Lacking thorns or fruit, Double Take™ Orange is perfect for hedging, mass planting and even flower arranging. Reaches three to four feet tall and wide. Drought tolerant once established.

Proven Winners

Chaenomeles speciosa 'Pink Storm' P.P.# 20,920, C.B.R.A.F.

Item #7445

Double Take™ Pink Storm Flowering Quince

Zone: 5 - 8

You'll do a double take when you see this Quince with stunning Camellia-like flowers! This deer resistant shrub puts on a spectacular early season display of large, fragrant, bright pink blooms. This relatively carefree, drought tolerant selection produces no fruit and is thorn-free. Its compact, spreading habit makes it ideal as a specimen, espalier, or hedge. Reaches three to six feet tall and three to five feet wide.

Clethra alnifolia 'Cristalina', P.P.# 21,561, C.B.R.A.F.

Item #7446

Sugartina™ Summersweet

Zone: 4 - 9

This dwarf Clethra has fragrant pure white flowers in late summer, attracting butterflies. This deer resistant shrub holds its tight dense shape without pruning. Glossy, dark green foliage turns an attractive yellow in fall. This North American native tolerates damp soils. Its compact form makes it a good fit for narrow beds or smaller woodland or wildlife gardens. Native to North America. Reaches 28 to 30 inches tall and 28 to 36 inches wide.

Clethra alnifolia 'Caleb', P.P.A.F., C.B.R.A.F.

Item #7447

Vanilla Spice® Summersweet

Zone: 4 - 9

A delightful deer resistant native plant that attracts butterflies and hummingbirds. The attractive, glossy dark green leaves set off the fragrant extra-large white summer flowers. Yellow fall foliage adds to its appeal. Ideal for mixed borders and naturalizing, especially wet and semi-shady sites. Reaches three to six feet tall and three to five feet wide.

Cornus stolonifera 'Farrow' P.P.# 18,523

Item #7480

Arctic Fire™ Red Twig Dogwood

Zone: 3 - 7

This compact selection of Red Twig Dogwood has dark red stems that provide a spectacular show in the winter sunlight. White flowers in spring are backed by dark green foliage. Unlike most Cornus that reach eight to 10 feet tall, Arctic Fire remains just three to four feet tall. Great in perennial or shrub borders, or use in floral arrangements. Prefers moist, well-drained soil; pH adaptable.

Cornus sanguinea 'Cato' P.P.# 19,892, C.B.R.A.F.
Arctic Sun™ Red Twig Dogwood

Item #7479

Zone: 4 - 9

This special smaller variety has beautiful yellow stems tipped with red, providing a spectacular winter show. White flowers appear in summer. It was selected for its naturally compact stature – reaching only three to four feet tall – and full branching. Stunning planted in containers or used in cut floral arrangements. Prefers moist, well-drained soil; pH adaptable.

Deutzia gracilis 'Duncan' P.P.# 16,098, C.B.R.# 2,640
Chardonnay Pearls® Deutzia

Item #2989

Zone: 5 - 8

Add season long color to the garden with this easy growing, bright beauty! Numerous pearl-like buds burst into attractive star-shaped flowers in spring. When the flowers have faded, this plant continues to shine with its bright yellow foliage. Growth is strong, but compact to create a wonderful small shrub that is equally at home in perennial or shrub borders. Use in place of dark green or purple foliage to add color and vibrancy to any garden. Reaches two to three feet tall and two feet wide.

Euonymus fortunei 'Roemertwo'
Gold Splash® Wintercreeper

Item #1919

Zone: 5 - 8

A real improvement in Euonymus! The big, round leaves of this selection have bright, bold variegation providing more impact than other, older varieties. The variegation is very stable, and the plant has excellent disease resistance. Use Gold Splash® for easy four season color in the landscape. The cheerful variegated foliage maintains its color all year long, and is accented by showy, persistent fruit in the fall. Reaches 18 to 24 inches tall.

Exochorda 'Niagara' P.P.# 21,665, C.B.R.A.F.
Snow Day™ Surprise Pearl Bush

Item #7448

Zone: 4 - 8

Snow Day™ Surprise's large white blooms cover this plant in a flood of spring flowers. This is a stronger grower than old Pearl Bush, with its neater, more compact habit. An excellent low maintenance plant for the spring landscape! Reaches three to four feet tall.

Proven Winners

Forsythia x intermedia 'Mindor' P.P.# 19,321, C.B.R.A.F.

Item #7482

Show Off™ Forsythia

Zone: 4 - 8

This compact selection offers a superior flower display over older varieties. It is covered from base to tips with large bright yellow blooms in early spring. The attractive dark green foliage, unlike that of other Forsythia, provides season-long interest. Excellent as a short hedge, in mixed borders and foundations, or as a cut flower. Reaches five to six feet tall and wide. Prefers a good loose soil but tolerates any soil; pH adaptable.

Forsythia x intermedia 'Show Off Starlet' P.P.A.F., C.B.R.A.F.

Item #7743

Show Off™ Starlet Forsythia

Zone: 4 - 8

If your older Forsythia takes up too much room and has a weak flower display, try this improved dwarf variety. Its compact form offers a mass of bright yellow spring flowers from base to tip. A beautiful accent plant in mixed borders or foundation plantings. Blooms on old wood. Reaches two to three feet tall and three to four feet wide.

Hibiscus syriacus 'Antong Two', P.P.# 19,547, C.B.R.A.F.

Item #7449

Lil Kim™ Rose of Sharon

Zone: 5 - 8

Say hello to the first dwarf Rose of Sharon! Lil' Kim™ is a unique shrub with dainty white flowers punctuated with a showy red eye. This selection appears to be a polyploid with its thick, dark green leaves and the flowers that last for three days before falling instead of the typical one day. Great for mixed containers, mixed perennial beds or around decks or entries. Developed by noted plantsman Dr. Shim of South Korea. Reaches three to four feet tall.

Hibiscus syriacus 'Notwoodthree', P.P.# 20,574, C.B.R.A.F.

Item #7450

Blue Chiffon™ Rose of Sharon

Zone: 5 - 8

Breathtaking large blue flowers are adorned with lacy centers to create anemone-like blooms. Each stem is packed with numerous buds. This vigorous grower offers fantastic mid-summer to late season color for hedges, and perennial or shrub borders. Reaches eight to twelve feet tall and four to six feet wide.

Hibiscus syriacus 'Notwoodone', P.P.# 12,619

Lavender Chiffon™ Rose of Sharon

Item #1696

Zone: 5 - 8

A whole new look for Rose of Sharon (Hardy Hibiscus) straight from England! Large, single lavender flowers adorned with a lacy center form an anemone-like bloom. Provides a dramatic tropical-looking focal point in mixed containers. Reaches eight to twelve feet tall and four to six feet wide.

Hydrangea arborescens 'Abetwo' P.P.# 20,571

Incrediball® Smooth Hydrangea

Item #7452

Zone: 3 - 9

This spectacular improved version of the native Annabelle hydrangea produces huge, full flower heads, as large as 12 inches across, and is both reliable and beautiful. Flowers open green, then mature to white before fading to green again. Very sturdy stems hold the blooms upright even if soaked with rain. This very cold hardy shrub blooms on new growth, so even very cold winters won't keep it from blooming. Deciduous. Reaches four to five feet tall, up to four feet wide.

Hydrangea arborescens 'NCHA1' P.P.# 20,765, C.B.R.A.F.

Item #7453

Invincibelle® Spirit Hydrangea

Zone: 3 - 9

Invincibelle Spirit® is the first-ever pink Annabelle hydrangea, producing loads of mophead flowers from early summer to frost. Dark pink buds open to hot pink flowers, fading to soft pink and finally to green. This hardy adaptable native selection is a reliable bloomer, even after the harshest of winters, and is also quite heat tolerant. Reaches three to four feet tall and wide. Deciduous.

Hydrangea macrophylla 'Horabstra' P.P.# 21,636

Item #7745

Abracadabra™ Star Hydrangea

Zone: 5 - 9

Large, bright lace-cap flowers emerge pink and white and mature to hot pink atop black satin stems. The distinctive black stems provide interest in the garden before the summer flowers open. An excellent summer color item in mixed borders. Good for cutting. Blooms on old wood. Bloom color may be affected by soil pH. Reaches three to four feet tall.

Proven Winners

Hydrangea macrophylla 'HorOrb' P.P.# 21,635 **Abracadabra™ Orb Hydrangea**

Item #7744

Zone: 5 - 9

If you're looking for an unusual Hydrangea with bright color, this is the plant for you! Vivid mophead flowers emerge green and peach, maturing to hot pink. The distinctive black stems are interesting even when the plant is not in bloom. An excellent summer color shrub for the mixed border. Good for cutting. Blooms on old wood. Bloom color may be affected by soil pH. Reaches three to four feet tall.

Hydrangea macrophylla 'Berner' P.P.A.F., C.B.R.A.F. **Let's Dance® Big Easy Hydrangea**

Item #7746

Zone: 5 - 9

Exceptionally large, vividly colored mophead flowers, the largest of perhaps any mophead Hydrangea! The huge blooms go through a wonderful progression of colors, from pinkish-green to pink, and often back to green. This reliable re-blooming Hydrangea blooms every year, on both old and new wood, summer through early fall. Soil pH affects blossom color. Great in the garden or as a cut flower. Reaches two to three feet tall. Prefers well-drained soil.

Hydrangea macrophylla 'Lynn' P.P.# 20,019, C.B.R.A.F. **Let's Dance® Starlight Bigleaf Hydrangea**

Item #7458

Zone: 5 - 9

The first reblooming Lace-cap Hydrangea, Starlight has elegant summer flowers held upright on strong stems. It is superior to other rebloomers on the market, with heavier bloom, excellent flower color and thicker and glossier leaves. Exhibits excellent cold tolerance. Soil ph affects blossom color; blue in highly acidic soils and lilac to pink in slightly acidic to alkaline soils. Stunning in massed plantings, containers or as cut flowers. Provides an excellent show through early fall. Reaches two to three feet tall and wide.

Hydrangea macrophylla 'Robert' P.P.# 20,020, C.B.R.A.F. **Let's Dance® Moonlight Hydrangea**

Item #7459

Zone: 5 - 10

This new and improved hybrid from Germany offers intense pink-red summer flowers that become green as they age. The tight sturdy stems make for excellent cut flowers or as an addition to perennial or shrub borders, as a hedge and in mixed containers. Soil pH may affect bloom color. This easy care shrub is mildew-resistant. Reaches two to three feet tall and wide.

Hydrangea macrophylla 'Paris Rapa' P.P.# 10,906
Cityline® Paris Bigleaf Hydrangea

Item #7456
Zone: 5 - 9

This new and improved hybrid from Germany offers intense pink-red summer flowers that become green as they age. The tight sturdy stems make for excellent cut flowers or as an addition to perennial or shrub borders, as a hedge and in mixed containers. Soil pH may affect bloom color. This easy care shrub is mildew-resistant. Reaches two to three feet tall and wide.

Hydrangea macrophylla 'Ragra'
Cityline® Rio Bigleaf Hydrangea

Item #7454
Zone: 5 - 8

This small to medium, early blooming selection offers large flowers that range from strong blue to purple depending on the soil. Aluminum sulfate may be added to the soil to encourage a more blue flower color. Not only are the blooms large and long lasting, Cityline™ Rio has excellent mildew resistance, making it a great container plant and cut flower. Reaches two to three feet tall and wide.

Hydrangea macrophylla 'Venice Raven' P.P.# 10,928
Cityline® Venice Bigleaf Hydrangea

Item #7457
Zone: 5 - 9

Large hot pink summer flowers provide a burst of color to the garden, then mature to an attractive green with age. The glossy green foliage is very disease resistant. This new and improved hybrid from Germany has a compact form with tight sturdy stems requiring minimal pruning. Excellent massed in perennial or shrub borders, in mixed containers, or as a cut flower. Reaches one to three feet tall and wide.

New

Hydrangea paniculata 'ILVOBO' P.P.# 22,782 Can. P.B.R.A.F.
Bobo® Hardy Hydrangea

Item #8095
Zone: 3 - 9

A new dwarf hydrangea that is sure to turn heads! Reaching to just three feet high, it will be engulfed by enormous white flowers in summer, providing a nonstop show until frost. Blossoms are held upright on strong stems, and continue to grow and lengthen as they bloom. In fall, flowers may turn a pinkish hue. An undeniable asset to any garden, particularly where space is limited. Grows to three feet tall and three to four feet wide.

Proven Winners

Hydrangea paniculata 'Limelight' P.P.# 12,874, C.B.R.# 2,319 Item #2437
Limelight Hardy Hydrangea

Zone: 3 - 9

An exciting hardy Hydrangea from Holland, Limelight offers unique bright chartreuse blooms in mid-summer. The blooms remain bright into fall when they turn a rich rosy pink. The fall display of chartreuse and pink blooms on the same plant is breathtaking! The flower heads are of good size, ranging from six to 12 inches and are held on upright stems. This easy-to-grow selection provides reliable flowering and flower color regardless of soil pH. Reaches six to eight feet tall.

Hydrangea paniculata 'DVPpink' P.P.# 16,166, C.B.R.# 2,892 Item #7461
Pinky Winky™ Hardy Hydrangea

Zone: 3 - 9

Pinky Winky™ has an unusual name, and an even more unusual flower. The large white panicles open in mid-to-late summer, with the florets at the base of the panicles turning pink in fall. The flower panicles continue to grow, producing new white florets at the tip. The result is spectacular two-toned flower panicles that can reach up to 16 inches in length! Soil pH does not affect bloom color. This hardy, easy to grow selection is adaptable to most soils and thrives in most gardens. Reaches six to eight feet tall.

New

Hydrangea serrata 'MAK20' P.P.A.F. Item #8096
Tuff Stuff™ Reblooming Mountain Hydrangea

Zone: 5 - 9

This fantastic new hardy, reblooming Hydrangea will provide months of enjoyment in the garden. Lovely reddish-pink lacecap flowers create a mass of color in early summer, and continue to bloom right up until frost. The semi-double to double florets begin with creamy coloration in the center before maturing to an intense pink. Flowers may shift to blue in acidic soils. Reaches two to three feet tall and wide. Deciduous.

Itea virginica 'Sprich' P.P.# 10,988 Item #4649
Little Henry® Dwarf Virginia Sweetspire

Zone: 5 - 9

Little Henry® is a useful native plant with much landscape potential. Its mounded, compact stature makes it an improvement over older varieties. Lightly scented, pure white flowers appear in early summer. As summer progresses shiny, disease-free foliage takes over until fall when the foliage turns a stunning garnet-red. Suitable in low-to mid-sized massed plantings as it matures to less than three feet tall. Prefer both full sun or full shade and moist soil. This easy-care plant requires little pruning or other maintenance. Reaches two to three feet tall and wide.

New

Parthenocissus quinquefolia 'Trok' P.P.A.F.
Red Wall™ Virginia Creeper

Item #8152

Zone: 3 - 8

This fantastic, salt tolerant native vine is a fast, easy way to create a dramatic and colorful green wall. Clinging by vigorous tendrils and climbing without support, Red Wall™ will dress up fences and rock walls with dark green foliage that turns fire-engine red in the fall. Small clusters of blue fruit ripens before the leaves fall. Vigorous vine climbs to 30 feet high and 10 feet wide. Deciduous.

Physocarpus opulifolius 'Mindia' P.P.# 16,371, C.B.R.# 2,892 Item #7467
Coppertina™ Ninebark

Item #7467

Zone: 3 - 8

A new hybrid between Dart's Gold and Diabolo®, this selection flushes an attractive copper in spring, transforming to a rich red in summer. Soft pink flowers line the gently arching branches in early summer. Coppertina is also noted for its attractive peeling bark and bright red seed capsules in fall. An adaptable native plant that is easy-to-grow and well-suited for difficult sites. Reaches eight to ten feet tall and five to six feet wide.

Physocarpus opulifolius 'Seward' P.P.# 14,821, C.B.R.# 2,641 Item #2994
Summer Wine® Ninebark

Item #2994

Zone: 3 - 8

An exciting improvement to Ninebark, Summer Wine® combines the fine texture and compact branching of Physocarpus Nana with the dark foliage of Physocarpus Diabolo. Season long purple foliage is covered with soft pink flowers in late summer. Smaller than other ninebark varieties, it is fast growing and disease resistant, offering a graceful arching habit. Adaptable and easy to grow, this native is a useful landscape shrub and also makes an attractive cut flower. Reaches five to six feet tall and wide.

Rosa 'WEKcisbako' P.P.# 18,552 Item #7749
Home Run® Red Rose

Item #7749

Zone: 4 - 9

This true-red Rose offers continuous blooms and top level disease resistance to both black spot and powdery mildew. Foliage has a naturally rounded shape and dense dark green color. It is heat tolerant, cold hardy and requires no deadheading. Reaches four to five feet tall and wide. Prefers moist, well-drained soil.

Proven Winners

Rosa 'WEKPhom' P.P.A.F.

Home Run® Pink Rose

Item #7748

Zone: 4 - 9

This superb landscape rose offers continuous bloom, black spot and mildew resistance, and heat tolerance - all with vivid, rich pink flowers! It is early to flower, producing new blooms daily making it a colorful choice for sunny areas. This showy low-maintenance shrub requires no deadheading to look great summer-long. Reaches three to four feet tall and wide.

Sambucus nigra 'Gerda' P.P.# 12,305, C.B.R.# 2,663

Black Beauty™ Elderberry

Item #1999

Zone: 4 - 7

A totally new look for Elderberry! The massive pink flowers appearing in mid-summer contrast wonderfully with the purple-black foliage. Grow it as a shrub, or cut it back annually and treat as a bold perennial. Reaches five to six feet tall and wide.

Sambucus nigra 'Eva' P.P.# 15,575, C.B.R.# 2,633

Black Lace™ Elderberry

Item #3594

Zone: 4 - 7

Black Lace™ is a stunning development in Elderberry breeding. Intense purple-black foliage is finely cut, giving it an effect similar to Japanese Maples. Creamy pink flowers appear in spring contrasting nicely with the dark leaves. Flowers are followed by blackish-red fall berries which may be harvested for making elderberry wine and jam, or left on the plant for birds and other wildlife. This cold hardy shrub is adaptable to most sites. Color is best in full sun. Reaches six to eight feet tall and wide.

Syringa x 'Penda' P.P.# 20,575, C.B.R.A.F.

Bloomerang® Purple Lilac

Item #7468

Zone: 3 - 7

Enjoy classic Lilac fragrance for months instead of weeks! A revolutionary new Lilac, Bloomerang® blooms in spring and then again throughout the summer. While traditional lilac varieties bloom for a few short weeks in spring, Bloomerang's fragrant flowers continue until frost. It does go through a rest period in the heat of the summer, then flowers. This compact, mounded variety fits well in any landscape, and is ideal as a foundation planting, in perennial beds or in mixed borders. Reaches four to five feet tall and wide.

Viburnum dentatum 'Christom'
Blue Muffin® Arrowwood

Item #7425
Zone: 3 - 8

More compact than other Viburnums, this selection fits easily into the landscape. Clean white flowers make for a crisp contrast with the glossy green leaves in early to mid-summer. Remarkably intense blue fruit appears in late summer and fall, attracting birds to the garden. Berries are not edible. Easy to grow, with little or no required maintenance, Blue Muffin adapts well to most full sun to partial shade locations. Reaches five to seven feet tall and four to five feet wide.

***Weigela florida 'Bramwell'* P.P.# 18,513, C.B.R.A.F.**
Fine Wine® Weigela

Item #7469
Zone: 4 - 8

Fine Wine is a vast improvement over similar varieties such as Ruby Queen. Its habit is tight and upright without having the tendency to split in the middle. Foliage color is similar to a fine Burgundy wine, providing vibrant contrast to the pink blooms. Slight shearing will re-bloom through the summer. Perfect in a container and the perennial border. Reaches two to four feet tall, up to three feet wide.

***Weigela florida 'Sunset'* P.P.A.F., C.B.R.A.F.**
My Monet® Sunset Weigelia

Item #7750
Zone: 5 - 8

A versatile new Weigela that grows only 12 to 18 inches tall. This new dwarf variety has very attractive yellow and green variegated foliage and nice red fall color. Grown primarily for its colorful foliage, it will occasionally produce soft, rosy pink flowers in spring. Add it to the front of beds and borders for multi-season color. Prefers loamy or clay soil with pH range of 6.1 to 7.8.

***Weigela florida 'Verweig'* P.P.# 16,824**
My Monet® Weigelia

Item #7471
Zone: 4 - 6

A sport of Weigela florida 'Tango', this masterpiece is the first dwarf variegated Weigela to be introduced. Variegation changes depending on light exposure - whiter variegation in shade and pink variegation in full sun. Its tight habit and colorful foliage make it very versatile. Possible applications include an artistic drift along the edge of a semi-shady annual or perennial bed or as an accent piece in a container. My Monet® reaches 18 to 24 inches wide, up to 24 inches tall.

Proven Winners

New

Weigela florida 'Bokrasopin' P.P.A.F.

Sonic Bloom™ Pink Reblooming Weigela

Item #8094

Zone: 4 -8

Create an explosion of color in the garden with this exciting new reblooming selection. Loads of hot pink buds appear in spring, open to rich pink flowers, followed by waves of blooms until frost! Mounded growth habit with deep green, deer resistant foliage. Reblooms without deadheading, providing season-long color in foundation plantings and borders. Reaches four to five feet tall and wide.

New

Weigela florida 'Verweil4' P.P.A.F.

Sonic Bloom™ Red Reblooming Weigela

Item #8093

Zone: 4 -8

A fantastic new selection for Spring of 2013, this must-have shrub will burst into bloom in spring, followed by waves of rebloom until frost. Lipstick-red flowers attract hummingbirds in droves. Deadheading is not necessary for rebloom. Provides vibrant, season-long color to foundation plantings and borders. Reaches four to five feet tall and wide. Deciduous.

All Our Plants are Distinctively Better® —

Here are a Few Standouts for 2013

We grow each of our 2,300 plant varieties in customized soil mixes to develop a strong root system and ensure a healthy plant that will flourish in the landscape. We have introduced hundreds of improved plant varieties that are bred to be more pest and disease resistant and with improved characteristics such as increased flower or fruit production, or unique color or shape. Here are some of our new favorites!

With its striking golden-yellow needles and unique dwarf spreading form, Feelin' Sunny™ Deodar Cedar is a treasure! It was discovered by one of our Craftsman at our Oregon nursery as a sport of Feelin' Blue,™ chosen in 2005 for its outstanding blue color by the noted plantsman, the late Monrovia Craftsman Cliff Comstock. Its interesting, irregular growth habit makes a wonderful specimen for smaller spaces, rock gardens and containers.

Who doesn't love the gorgeous flowers displayed on deciduous Magnolias? Rose Marie Magnolia does not disappoint with its exquisite, large flowers that are a bright pink on the outside and a softer pink on the inside. It is very floriferous with an exceptionally long bloom season, making a spectacular specimen or accent.

Flower Carpet® Rose 'Pink Splash' is the latest in the series of Flower Carpet Ground Cover Roses. It bears masses of spectacular bi-colored pink flowers from spring through fall. Like its brothers and sisters, it has glossy green foliage, is simple to maintain, exceptionally disease resistant, and doesn't require spraying.

Abelia x grandiflora 'Kaleidoscope' P.P.# 16,988
Kaleidoscope Abelia

Item #2834

Zone: 6 - 9

This plant discovery has unrivaled leaf variegation with a dazzling range of changing colors. In spring, its new growth is bright yellow and lime-green, becoming a multitude of bright harvest colors by fall through winter. When mixed with dark evergreen shrubs, its colorful foliage comes to life. A low, compact selection for patio containers or massing as a groundcover. A semi-evergreen, it will grow two feet tall and three feet wide. Prefers full sun; partial shade in hotter regions.

Distinctively Better® Plants

Acer palmatum dissectum 'Red Dragon' **Red Dragon® Japanese Maple**

Item #1039

Zone: 5 - 8

Beautiful purple leaves are deeply dissected for an attractive lacy texture. Fall foliage is bright apple red. Makes a stunning focal point or accent for lightly shaded locations. Its small size is perfect for containers. This deciduous shrub is slow growing to three to five feet tall and five feet wide. Prefers moist, well drained, acidic soil.

Berberis thunbergii 'Goruzam' P.P.# 16,203 **Golden Ruby® Barberry**

Item #3523

Zone: 4 - 8

A beautiful, slow-growing compact plant with striking coral-orange foliage in the spring, maturing to wine red accented with a golden margin. Makes a great landscape plant for mass plantings or an eye-catching color contrast. Its compact growth habit, only two feet tall and wide, makes this a low maintenance selection and forms a dense, rounded shrub. Prefers full sun. Deciduous. Another fantastic dwarf Barberry from Lake Country Nursery in Ohio.

New

Berberis thunbergii 'Orange Rocket' P.P.# 18,411 **Orange Rocket Barberry**

Item #6293

Zone: 4 - 9

Vibrant coral-orange new foliage ages to mid green, then turns ruby red in autumn. This award-winning, compact, upright growing shrub has a vigorous growth habit and improved resistance to rust. Use to brighten the landscape in mass plantings, as a specimen plant, or in a container. Upright grower to five feet tall and two feet wide. Deciduous.

Monrovia
Exclusive

Berberis thunbergii 'Pygruzam' **Pygmy Ruby™ Barberry**

Item #3524

Zone: 4 - 8

Shiny, deep red leaves cover the naturally dense, globe-shaped shrub. With no trimming required to maintain its neat, dwarf habit, this makes a fine low-maintenance mass-planting, low border or accent. Deciduous. Reaches one and one-half feet tall and two feet wide. Another easy-care dwarf Barberry from Lake Country Nursery in Ohio.

Borinda angustissima
Narrow-leaved Clumping Bamboo

Item #3553

Zone: 8 - 9

A rare species valued for its delicate foliage and extremely narrow, clumping growth habit. Tolerant of heat, cold and drought once established. Well suited for the West Coast and Southeastern U.S. Prefers dappled shade and can be used as a stately accent specimen, screen or hedge planting. Mature plants will develop a vase shape, growing 16 to 18 feet tall by three to four feet wide. Not invasive.

Bougainvillea 'Blueberry Ice'
Blueberry Ice Bougainvillea

Item #9012

Zone: 10 - 11

This compact selection is perfect for spots that are tight on space and full on sun. Cascading masses of lavender-blue flower bracts borne on arching stems add brilliant color throughout the warm season. Variegated green and white foliage adds wonderful contrast. Provides a fantastic show when massed in shrub beds, or featured in patio containers and hanging baskets. This is a great summer annual for northern areas. Reaches two to three feet tall and three to five feet wide; smaller stature is maintained with light pruning. Prefers acidic soil with pH range of 6.1 to 6.5.

Bougainvillea glabra 'Yani's Delight'
Yani's Delight Bougainvillea

Item #9014

Zone: 9 - 11

Pink bracts tinged with white cover this attractive smaller mounding Bougainvillea. Flowers spring through fall. Lovely planted against a sunny wall or in a patio container. Reaches two to three feet tall and wide. Prefers acidic soil with pH range of 6.1 to 6.5.

Bougainvillea 'Moneth'
Purple Queen® Bougainvillea

Item #1305

Zone: 10 - 11

Rich deep purple blooms are displayed against dark green foliage on this compact spreading tropical. Showy bracts appear from summer through fall. Wonderful in planter boxes, espaliered along fences, or as erosion control. Use for annual color in colder climates. Vigorous growing vine to 20 feet. Prefers acidic soil with pH range of 6.1 to 6.5.

Distinctively Better® Plants

Monrovia
Exclusive

Bougainvillea 'Monka' P.P.# 6,959

Oo-La-La® Bougainvillea

Item #1326

Zone: 10 - 11

Vibrant, magenta-red bracts are longer than most Bougainvilleas. Compact, dwarf form is wonderful for cascading from hanging baskets or as a spreading groundcover. Good summer annual color in colder climates. Easy care and waterwise. Prefers full sun and occasional watering. Moderate grower to 18 inches tall and six to eight feet wide. Prefers acidic soil with pH range of 6.1 to 6.5.

Monrovia
Exclusive

Bougainvillea 'MonSam'

Golden Jackpot® Bougainvillea

Item #1648

Zone: 10 - 11

Vibrant purple flowers create a dramatic contrast with the chartreuse to bright golden edges on the green leaves. Provides a festive color and tropical effect in patio containers, as seasonal color or as a groundcover. This long-blooming selection is a moderate grower to 15 inches tall and four to five feet wide. Prefers acidic soil with pH range of 6.1 to 6.5.

Bougainvillea spectabilis 'White Stripes'

White Stripes Bougainvillea

Item #9011

Zone: 9 - 11

Clusters of bright white flowers appear among the green leaves variegated with white. This lovely color combination makes this one of the most elegant Bougainvilleas. Its long bloom season lasts from spring through fall. Strong vining habit for quick cover and beautiful show throughout warm season. Can be used as a summer annual in patio containers or hanging baskets. Reaches 10 to 20 feet tall, spreading to 20 to 30 feet wide. Prefers acidic soil with pH range of 6.1 to 6.5.

Monrovia
Exclusive

Buxus sempervirens 'Monrue' P.P.# 15,243

Green Tower® Boxwood

Item #1390

Zone: 5 - 9

The perfect evergreen hedge for tight spaces or pruned as a topiary. Very columnar form produces lustrous dark green leaves with a lighter green underside. Medium to finely textured foliage does not brown-out in winter. Moderate to fast grower to nine feet tall and one to two feet wide. Widely adaptable in well drained soils, however prefers limestone soils with pH 6 or higher.

New

Callistemon rigidus 'RutCall' P.P.A.F
Scarlet Torch™ Bottlebrush

Item #4676

Zone: 8 - 11

A favorite of hummingbirds, bright red bottlebrush-shaped flowers cover this new introduction from Rutgers University. The tight rounded form is perfect for smaller yards and creates year round interest, with larger blooms than other varieties and a non-drooping form, reaching up to nine feet tall and 13 feet wide in 10 years. This is a great choice for a minimal care gardens, as it maintains its compact form with little to no pruning required!

Monrovia
Exclusive

Camellia japonica 'Monke'
Swan Lake™ Camellia

Item #1988

Zone: 8 - 10

Snow white, extra large blooms have a lovely semi-double, peony form. Showy flowers contrast well with the glossy, dark green foliage. Use as a specimen in a woodland garden, as a privacy screen, or in a container. Flowers are lovely when cut and floated in a bowl of water. This mid-to-late season bloomer is a prized evergreen shrub in milder regions. Moderate grower to six to eight feet tall and wide, larger with age. Awarded the Harold Cawood Award by the American Camellia Society in 1999 and again in 2001 for being the best white Camellia.

Monrovia
Exclusive

Camellia japonica 'Nuccio's Bella Rossa' P.P.# 13,023
Nuccio's Bella Rossa Camellia

Item #1725

Zone: 8 - 10

An abundance of four-inch crimson red blooms open slowly over an extended period providing an especially long bloom season. Even young plants show an extra heavy bud set. Looks right at home in Asian gardens when massed or as a specimen in a container. Glossy dark green foliage makes this a prized plant for the milder regions of the U.S. Prefers filtered shade and regular watering. Moderate grower to six to eight feet tall and wide, larger with age.

Monrovia
Exclusive

Camellia sasanqua Marge Miller™
Marge Miller™ Camellia

Item #1500

Zone: 7 - 10

Although presented in the form of a patio tree or staked to three feet tall, this Australian introduction is the first prostrate Camellia in the world. Full, soft pink flowers appear in fall along the stems against the deep-green, glossy foliage. It makes a superb groundcover, spilling over walls or even from a hanging basket. When trained on a stake or wall, it will cascade down for a lovely weeping shape. Reaches one foot tall and four feet wide; taller when staked or trained as a topiary form. Evergreen.

Distinctively Better® Plants

Monrovia
Exclusive

Camellia sasanqua 'MonDel' P.P.# 21,687 **Pink-A-Boo®**

Pink-A-Boo® Camellia

Item #2233

Zone: 7 - 10

This stunning Camellia is a sport from the extremely popular red Yuletide Camellia. Its large, fragrant, deep pink blooms are centered with bright yellow stamens – a beautiful addition to the winter garden. An excellent choice for a colorful hedge, espalier, or border shrub. Reaches eight to ten feet tall and wide in twelve years; larger with age.

Monrovia
Exclusive

Caryopteris x clandonensis 'Korball' **Blue Balloon®**

Blue Balloon® Bluebeard

Item #9289

Zone: 6 - 9

A fabulous new introduction from Germany, this Bluebeard is very spherical in its habit, like a blue balloon when in full bloom. The striking deep blue flowers appear from early summer through September and are attractive to butterflies and bumblebees. The leaves, which are dark green with silvery hairs beneath, emit a lavender fragrance. This deciduous broadleaf shrub is quite tolerant of most soils, but prefers fertile, well-drained soil and full sun. Cut back previous year's growth in spring to encourage strong, new branches that will form a dense shape and encourage abundant flowering.

New

Monrovia
Exclusive

Cedrus deodara 'MonKinn' P.P.A.F.

Feeelin' Sunny™ Deodar Cedar

Item #5127

Zone: 7 - 9

Sporting needles of golden-yellow, this unique dwarf spreading evergreen is a striking new selection from our Oregon nursery. Its interesting, irregular growth habit and foliage color is stunning when contrasted against darker green conifers and deciduous trees. Makes a wonderful specimen for smaller spaces, rock gardens and containers. Attractive when trained into an upright form. Grows two to four feet tall, spreading to six feet wide Evergreen.

Cercis canadensis 'Covey' P.P.# 10,328

Lavender Twist® Redbud

Item #1785

Zone: 5 - 9

Rosy-pink flowers completely cover the bare, slightly twisted, weeping branches in early spring. Trained from an early age, this truly unique selection will develop a beautiful umbrella of cascading branches covered in heart-shaped leaves. A charming specimen for use as a focal point in a shrub or entryway. A GLEE Planetarium award winner. Slow grower, reaching five to six feet tall, six to eight feet wide. Deciduous.

EXCLUSIVE CHAMAECYPARIS LAWSONIANA - THE GUARDIAN® SERIES

Monrovia is proud to be the exclusive grower of Guardian® Series Port Orford Cedars, which are grafted onto the first-ever Phytophthora lateralisis resistant rootstock – a disease that has caused the demise of many Chamaecyparis lawsoniana over the last two decades. This improved, disease resistant rootstock was developed at Oregon State University by Dr. Everett Hansen, an internationally recognized forest pathologist who has received industry accolades for his contributions to management of diseases of forest conifers.

Monrovia
Exclusive

Chamaecyparis lawsoniana 'Blue Surprise' **Blue Surprise Port Orford Cedar - The Guardian® Series**

Item #3381
Zone: 6 - 9

This cultivar has exceptional steel-blue foliage with a soft appearance, complemented by a purplish cast during the winter months. A fairly slow growing conifer with a narrow upright frame, it will reach six feet tall and two feet wide. A fine specimen plant, it is ideally used as a focal point near the house or well positioned in a shrub border.

Monrovia
Exclusive

Chamaecyparis lawsoniana 'Golden King' **Golden King Port Orford Cedar - The Guardian® Series**

Item #2363
Zone: 6 - 9

Golden King has bluish-green foliage tipped in bright gold, accented by graceful, cascading, fan-shaped branches. It is a robust conifer growing 30 to 40 feet tall and 15 to 18 feet wide. Foliage may grow darker green with age. Excellent as individual specimen, as an informal windbreak or as a privacy screen. The plant enjoys a full sun/part shade and well-drained position in the garden.

Monrovia
Exclusive

Chamaecyparis lawsoniana 'Silberstar' **Silberstar Port Orford Cedar - The Guardian® Series**

Item #2362
Zone: 6 - 9

This stunning variety has silver-blue foliage, accented by graceful, cascading, fan-shaped branches. Silberstar's rounded form becomes more upright and pyramidal with age, making it a striking lawn specimen, screen or foundation plant. It is a robust conifer growing 30 to 40 feet tall and 15 to 18 feet wide.

Distinctively Better® Plants

Monrovia
Exclusive

Chamaecyparis lawsoniana 'Yvonne'

Yvonne Port Orford Cedar - The Guardian® Series

Item #3380

Zone: 6 - 9

This outstanding cultivar has flattened sprays of bright golden-yellow-tipped green foliage. Yvonne has a neat conical shape and makes an excellent accent plant near an entryway, at the back of a shrub border or as an informal hedge. It prefers full sun for best coloration. Moderate growing 10 to 20 feet tall, six to 12 feet wide.

Monrovia
Exclusive

Chilopsis linearis 'Monbews' P.P.# 11,708

Timeless Beauty® Desert Willow

Item #2415

Zone: 7 - 9

This unique selection is prized for an especially long flowering period from late May to September, since it does not set seed. Large fragrant tubular bi-colored burgundy and pale lavender flowers appear in clusters at the ends of the branches and attract hummingbirds. This deciduous tree works well as an accent tree or container specimen. Ideal for xeriscaping situations. Moderate grower to 15 to 20 feet tall and wide.

Monrovia
Exclusive

Clematis 'Cleminov 51' P.P.# 17,012

Sapphire Indigo™ Clematis

Item #2186

Zone: 5 - 9

With a nearly continuous blooming habit, this compact vine will provide stunning masses of large sapphire blue flowers all summer long! Can be trained as a climber or grown as a showy, shrubby groundcover with no support. This outstanding new selection is perfect in containers and stunning when featured in a hanging basket. Grows to three to four feet tall and wide; taller if trained as a climber. Deciduous.

Clematis x Vancouver™ 'Starry Nights'

Vancouver™ Starry Nights Clematis

Item #4874

Zone: 4 - 9

Majestic, eight-inch rosy pink to fuchsia blooms with color intensified towards the center. Flowers become paler with age, with midribs that appear to be "dusted with gold," shimmering in direct sunlight. This fast-vine can be enjoyed in a large container, climbing an arbor, or as a fence or wall cover.

Cordyline x 'JURred' P.P.# 14,224

Festival Grass™ Cordyline

Item #3173

Zone: 9 - 11

Prized for its eye-catching bright burgundy-red foliage, this hybrid Cordyline creates a dramatic grass-like effect with its white flowers appearing on dark red stems. Spectacular when paired with bright-colored foliage and flowers. Plant in drifts along walkway borders or in foundation plantings. A bold architectural form in container gardens. Long arching leaves form a mounding clump three feet tall and wide.

New

Cornus x 'KN30-8' P.P.# 16,309

Venus® Dogwood

Item #3039

Zone: 5 - 9

This spectacular, fast growing hybrid Dogwood is distinguished by exceptionally large, white flowers - as large as your hand! Summer flowers yield attractive strawberry-like fall fruit. Glossy green leaves will show wonderful fall color. This vigorous selection, marketed under license from Rutgers University, has outstanding winter hardiness, good tolerance of drought conditions and is highly resistant to disease. Reaches 15 to 20 feet tall and wide. Deciduous.

Cupressus x leylandi 'Gold Rider'

Gold Rider Leyland Cypress

Item #3164

Zone: 5 - 9

Considered one of the best golden conifers, this selection was found as a sport in the Netherlands. Its open, horizontal branching structure has dense needle-like sprays. The lime green interior foliage is tipped with bright gold. Foliage won't burn in full sun. A single plant makes a bright focal point in the garden, or en masse as an eye-catching hedge. This slow, upright grower will reach to 35 feet tall and 15 feet wide. Best in well-drained soil.

Cupressus macrocarpa 'Wilma Goldcrest'

Wilma Goldcrest (Monterey) Cypress

Item #5581

Zone: 7 - 10

This dwarf evergreen conifer has a tight, columnar habit. Its foliage is bright gold with a lemony fragrance. This easy to grow shrub makes a striking container plant, hedge, or specimen. Beautifully featured against a backdrop of trees or shrubs with red or purple foliage. Slow grower, reaching six-to-eight feet tall and one-to-two feet wide at maturity. Prefers soil pH range of 6.6 to 7.5.

Distinctively Better® Plants

Monrovia
Exclusive

Cupressus sempervirens 'Monsbel' P.P.# 12,933 Tiny Tower® **Tiny Tower® Italian Cypress**

Item #3073

Zone: 7 - 10

This unique, compact Cypress maintains its narrow, columnar form and tidy, well-groomed appearance without pruning. Its blue-green foliage is exceptionally dense. Well-suited to topiaries and containers in Mediterranean gardens or used as a windbreak, this easy-care conifer prefers full sun and only occasional watering. Slow growing to 25 to 30 feet tall and three feet wide.

Daphne transatlantica 'BLAFRA' Eternal Fragrance P.P.# 18,361 **Eternal Fragrance Daphne**

Item #4923

Zone: 6 - 9

This easy-to-grow Daphne delights with a profusion of blush pink flower clusters from spring through fall. A slow-growing, compact selection, guaranteed to provide long-lasting beauty and fragrance in the garden. This tidy evergreen landscape shrub is stunning in group plantings or flowery containers. Will reach only two to three feet tall and wide. Deciduous below 0 degree Fahrenheit.

Euonymus japonicus 'Moness' **Silver Princess™ Boxleaf Euonymus**

Item #3525

Zone: 6 - 9

A newer Boxleaf Euonymus with small, narrow foliage displaying silvery edges to the leaves. Its growth habit is upright and compact for a dense, vigorous appearance, perfect for small hedges. The dramatic variegated foliage is stunning in contemporary gardens in borders or poolside, or for more formal topiary applications. This easy-care evergreen shrub is a moderate grower reaching two to three feet tall and wide.

Euonymus japonicus var. microphyllus 'Moncliff' **Sunny Delight® Boxleaf Euonymus**

Item #3512

Zone: 6 - 9

Dark green leaves with narrow yellow edges give this compact shrub a handsome, formal appearance. This low evergreen hedge is easy care as it requires minimal trimming. Its dramatic foliage color adds contrast where needed. Moderate grower to two feet tall and wide.

Monrovia
Exclusive

***Gardenia jasminoides 'Aimee'* (Grafted onto *G. thunbergii*)**

Item #3757

Zone: 8 - 11

Wonderfully fragrant, four- to five-inch white double blooms are larger than any other Gardenia. The first Gardenia to bloom in spring, continuing into the growing season. Grafted onto nematode resistant *G. thunbergii* rootstock, enabling the plant to better tolerate poor soils and more readily take up nutrients. Compact grower to five to eight feet tall and three to six feet wide.

***Gardenia jasminoides 'August Beauty'* (Grafted on to *G. thunbergii*)** Item # 3415

Zone: 8 - 11

Produces a heavy crop of jasmine-scented, three-inch white blossoms nonstop from mid-spring through fall. Dense evergreen foliage is a glossy dark green. Nematode-resistant rootstock enables the plant to better tolerate poor soils. A perfect shrub for foundation plantings near doors and windows to enjoy its fragrance. Prefers organically rich, well-drained acidic soil. Moderate grower to four to six feet tall by three to four feet wide.

***Gardenia jasminoides 'Mystery'* (Grafted onto *G. thunbergii*)**

Item #3759

Zone: 8 - 11

Sweetly fragrant, large pure white flowers against contrasting glossy green foliage make this compact shrub a standout. Plant near outdoor living areas or entryways to enjoy its wonderful scent. An evergreen accent or container plant that thrives due to nematode-resistant rootstock, helping it tolerate poor soils and more readily take up soil nutrients. Moderate grower to five feet tall and three feet wide.

***Gardenia jasminoides 'Veitchii'* (Grafted onto *G. thunbergii*)**

Item #3781

Zone: 8 - 11

Highly prized for its profusion of sweetly fragrant double blooms. A beautiful specimen with upright branches covered with glossy evergreen foliage. Grafting provides added protection of nematode resistant rootstock, enabling the plant to better tolerate poor soils. Superb container plant or for cut flowers. Grows to four feet tall and three feet wide.

Distinctively Better® Plants

Hebe 'Gibby'

Gibby Hebe

Item #5094

Zone: 7 - 11

This hardy, easy-to-grow selection forms a somewhat open evergreen shrub, about 20 inches tall and slightly wider. The leaves are oval and blue-grey. Pale lilac flowers appear in summer. A worthy addition to rock gardens, borders or containers. Prefers well-drained soil.

Hebe 'Lindsayi'

Lindsayi Hebe

Item #5099

Zone: 7 - 11

This attractive evergreen shrub is quite hardy and blooms profusely. It has an upright habit, dark purple stems, and concave oval green leaves. Its stout spikes of lilac-pink flowers appear in early summer. Reaches just over three feet tall and wide.

Hebe pimeleoides 'Quicksilver'

Quicksilver Hebe

Item #5103

Zone: 8 - 11

Unique small shrub with dark, nearly black, wiry limbs and tiny, silvery blue-grey leaves. Semi-creeping, with an open, airy habit, it looks lovely cascading off a rocky ledge. Small pale lilac flowers appear in summer. Easy to grow and wind tolerant; ideal in coastal areas. Makes a top-notch container plant in colder climates. Its black stems look fabulous in cut flower arrangements. Grows to one foot tall and two to three feet wide. Evergreen.

New

Hebe pinguifolia 'Pagei'

Page Hebe

Item #5104

Zone: 8 - 11

One of the first Hebes to flower, this attractive dwarf shrub shows off its dainty white flowers in late Spring to early Summer. Silvery grey-green foliage features red margins red on young leaves. Forms a neat, low mat, making an attractive addition to the rock garden or at the front of the border. Evergreen. Moderate grower to nine to 12 inches tall, spreading to five feet wide.

New

Monrovia
Exclusive

Hibiscus rosa-sinensis 'Hiroshima' Red Darling®

Item #9142

Zone: 10 - 11

Red Darling® Hibiscus

Profusely blooming with flowers that are a tantalizing blend of velvety red and coral, Red Darling® is one of the best red Hibiscus selections we've seen. The base of each petal is deep cherry with an exquisite creamy-coral reverse. A large red pistil carries bright gold pollen, inviting hummingbirds and butterflies. Exceptionally vigorous upright growth supports glossy deep green foliage in stunning contrast with the flowers. Bred by Hiroshi "Hiro" Kuwabara. Moderate growing to six to eight feet tall, three to four feet wide. Evergreen.

Hydrangea macrophylla 'Mini Penny' P.P.# 15,744

Item #3877

Zone: 6 - 9

Mini Penny™ Hydrangea

Large mophead flowers appear nearly continuously on this exceptional dwarf, compact shrub. Blossoms tend to be blue when planted in acidic soils, and pink in more alkaline soils. A wonderful container plant, low flowering hedge or highlight of a flowering border. Highly disease resistant foliage. Compact growing shrub two to three feet tall, three to four feet wide. Deciduous.

New

Monrovia
Exclusive

Hydrangea macrophylla 'MonMar' P.P.A.F.

Item #9275

Zone: 5 - 9

Enchantress® Hydrangea

Upstaging other rebloomers, this exceptional new selection stands out with its tall stately ruby-black stems showcasing a nearly endless show of beautiful mophead flowers. Blooming on both old and new wood, Enchantress® provides three seasons of interest by virtue of her elegant dark stems; stunning even when blossoms fade. Flowers are blue in acid soils, pink in alkaline soils, aging to green splashed with cream. Superb shrub for accent, specimen, or border. Excellent cut and dried flower. This stunning beauty is a collector's dream and a must for every garden. Reaches three to five feet tall and wide.

Monrovia
Exclusive

Hydrangea macrophylla 'Pia'

Item #4207

Zone: 5 - 11

Pink Elf® French Hydrangea

Miniature in size, Pink Elf® is a perfect small shrub for planting in containers, or used as an accent or border in semi-shady areas. Numerous rich pink flower heads add long-lasting enjoyment. Makes a great cut flower. Fast grower to 18 inches tall and 24 inches wide.

Distinctively Better® Plants

New

Hydrangea quercifolia 'Munchkin' **Munchkin Oakleaf Hydrangea**

Item #9317

Zone: 5 - 9

This exciting U.S. National Arboretum introduction offers a profusion of large, six and one-half-inch inch long flower clusters in summer, showcased against dark green, deeply lobed oak-like leaves. Blossoms open white, age to pink, and remain upright even after heavy rains. Foliage turns a brilliant mahogany in fall. Exceptional compact form and dense habit make it ideally suited for use in small residential landscapes. Stunning when used for mass plantings, hedges and in mixed borders. Grows quickly to three feet tall and three to four feet wide in ten years.

New

Hydrangea quercifolia 'Ruby Slippers' **Ruby Slippers Oakleaf Hydrangea**

Item #4816

Zone: 5 - 9

A profusion of exceptionally large flower clusters in summer are showcased against dark green, deeply lobed oak like leaves. Blossoms open white, quickly age to deep pink and are robust, remaining upright even after heavy rains. Foliage turns a brilliant mahogany in fall. Compact form is well suited for small landscapes. Ideal used in mass plantings, hedges and mixed borders. An introduction from the U.S. National Arboretum. Fast growing to three to four feet tall and four to five feet wide.

New

Monrovia
Exclusive

Ilex x meserveae 'MonNieves' P.P.# 21,941 **Scallywag Holly™**

Item #2109

Zone: 5 - 9

An exciting discovery, this attractive sport of Little Rascal® Holly is a more upright grower, still having a dense, rounded form. Shiny dark green foliage takes on attractive purple-burgundy tone in fall and winter. A wonderful foundation shrub with improved disease resistance. This male holly will not produce berries; use as a pollenizer. Slow growing, reaching four feet tall and three feet wide. Evergreen.

Monrovia
Exclusive

Ilex x 'RutHol 1' P.P.A.F. **Emerald Colonnade® Holly**

Item #9265

Zone: 7 - 9

A handsome rounded to pyramidal evergreen male holly that can be used as a single specimen, or small group planting. Makes a great container plant to accent an entryway to the house or garden, emphasizing its natural form or as a formal topiary. Emerald Colonnade® also makes a superb hedge, screen or windbreak. The creation of Dr. John M. Ruter, a renowned plant breeder and researcher at the University of Georgia. Grows ten to twelve feet tall and six to eight feet wide.

Monrovia
Exclusive

Juniperus x pfitzeriana 'MonSan' P.P.# 17,622
Sea Of Gold® Juniper

Item #4813
Zone: 3 - 9

Valued for its intense golden foliage and proven to be a superior cultivar over similar varieties in the marketplace, this evergreen shrub is water conserving. Color is retained and deepens in winter better than other gold-tipped varieties. Growing three feet tall by four to eight feet wide, this durable and versatile plant can be used as a mounding groundcover or as an accent with its bright contrasting foliage.

Juniperus virginiana 'Taylor'
Taylor Juniper

Item #3684
Zone: 3 - 9

This North American native has beautiful semi-soft, blue-green foliage. The narrow columnar shape gives this evergreen a formal look. Makes a great privacy screen, a flanking plant for entrances, or a dramatic vertical element in the landscape. Taylor maintains a denser upright form over similar plants, limiting winter snow damage. This Nebraska Statewide Arboretum introduction is as sport of an Eastern Red Cedar. This moderate grower will reach 30 feet tall and three feet wide.

Monrovia
Exclusive

Lantana camara 'Monike' P.P.# 17,612
Teenie Genie® Compact Lantana

Item #2446
Zone: 9 - 11

Teenie Genie® is an extremely dense and compact shrub, reaching to 30 inches tall and wide. One of the most symmetrical Lantanas available with no pruning required, it provides a continuous display of festive multi-colored rosette flowers which open chiffon yellow, turning fuchsia pink. Attracts butterflies. Flowers year-round in warmer climates, making a superb choice for containers, mass plantings and edging. This easy-care evergreen is drought tolerant and loves full sun.

Monrovia
Exclusive

Lantana 'Mary Ann'
Mary Ann Lantana

Item #5664
Zone: 7 - 11

This Lantana was selected for improved cold hardiness and a compact growth habit. It has bicolor orange, yellow and pink flower clusters blooming from spring to late fall. This evergreen shrub will grow 30 inches tall and wide and looks great in a perennial or shrub borders. Prefers full sun.

Distinctively Better® Plants

Monrovia
Exclusive

Lantana sellowiana 'Monma' **White Lightnin® Trailing Lantana**

Item #5703

Zone: 9 - 11

A profusion of pure white flowers cover this spreading evergreen groundcover shrub year round. Blooms continuously in frost-free areas, attracting butterflies to the garden. Provides a tropical look when cascading over raised beds and in hanging baskets. This heat and drought tolerant shrub makes an excellent bank cover, and is useful for erosion control and firescaping. Moderate grower to eight to 12 inches tall, spreading to three to six feet wide.

Monrovia
Exclusive

Lantana sellowiana 'Monswee' P.P.# 7,626 **Lavender Swirl® Trailing Lantana**

Item #5723

Zone: 9 - 11

A profusion of both pure white and solid purple flowers cover this widely spreading groundcover shrub year round. Effective cascading over raised beds, in hanging baskets and containers, and also as a bank cover for erosion control. Attracts butterflies. Prefers full sun and occasional watering. Moderate grower to eight to 12 inches tall and three to six feet wide.

Monrovia
Exclusive

Lavandula stoechas 'Larkman Hazel' P.P.# 20,894 **Hazel™ Spanish Lavender**

Item #1784

Zone: 7 - 9

Fragrant, large, vibrant bluish-purple flowers in spring and early summer complement the gray-green finely textured foliage on this evergreen shrub. Less vulnerable to falling open with age than other lavenders. Ideal for borders, cottage gardens, and containers. This easy care lavender prefers full sun and occasional watering. Moderate grower to 30 inches tall and 24 inches wide.

Monrovia
Exclusive

Lavandula stoechas 'Winter Bee' P.P.# 20,840 **Winter Bee Spanish Lavender**

Item #2659

Zone: 7 - 9

This hybrid is one of the earliest spring blooming Lavenders, producing an abundant display of dark purple flowers from late winter to early summer. A carefree perennial, it is tolerant of heat and humidity as well as cold and wet conditions. It can be intermingled in flowerbeds, edged along a garden path or used as a solitary container plant. Dense, mounding form 20 to 28 inches tall and 18 to 36 inches wide. Prefers full sun.

Loropetalum chinense 'Chang Nian Hong'
Ever Red™ Fringe Flower

Item #3742

Zone: 7 - 9

This compact evergreen shrub is known to have the darkest foliage and flowers of all Loropetalum varieties. The foliage is very dark purple year-round and retains its color better during the summer months. In late winter and spring, this beautiful plant has a profusion of brilliant ruby-red fringe flowers. Works well in group plantings along foundations, entryways and garden paths. Grows to five to six feet tall and wide.

Loropetalum chinense 'Snow Panda'
Snow Panda Fringe Flower

Item #9840

Zone: 7 - 9

Stunning snow white flowers in late winter and early spring, highlighted by sage green foliage. Use as a colorful accent in borders and containers. A U.S. National Arboretum introduction. Reaches eight to 10 feet tall, six to eight feet wide. Prefers well drained soil, rich in organic matter. Feed with an acid fertilizer after bloom.

Magnolia x soulangiana 'Jurmag1' P.P.A.F.
Black Tulip™ Magnolia

Item #5958

Zone: 5 - 9

Rich, deep burgundy-red six inch flowers with a unique tulip shape appear before the leaves emerge in early spring. The darkest and tightest flowers of any Tulip Magnolia on the market! An excellent small specimen or may be topped to form a hedge. A fine container plant or backdrop for Rhododendrons, Camellias and Azaleas. Slender multi-branched tree to 15 to 20 feet tall and six to 10 feet wide.

New

Magnolia 'Rose Marie'
Rose Marie Magnolia

Item #5963

Zone: 4 - 8

Rose Marie has exquisite, large flowers that are a bright pink on the outside and a softer pink on the inside. This hybrid is a very late and long bloomer, providing a show for up to six weeks in April and May -- and quite floriferous. The foliage is an attractive dark green. This small tree makes a spectacular specimen or accent, reaching 10 to 12 feet tall and eight feet wide at maturity. Deciduous.

Distinctively Better® Plants

Monrovia
Exclusive

Mandevilla x amabilis 'Monrey' P.P.# 14,290

Tango Twirl® Mandevilla

Item #6129

Zone: 10 - 11

Spectacular, delicate soft pink, fully double flowers are held in upright clusters and enhanced by large, deep green glossy leaves. This evergreen tropical vine will flower repeatedly from late spring to early fall. A lovely choice for a trellis, arbor or container. This fast grower has twining stems reaching 15 to 20 feet long.

Monrovia
Exclusive

Mandevilla x amabilis 'Rita Marie Green' P.P.# 11,787,
UP 6,300,547

Item #6119

Zone: 10 - 11

Pink Parfait® Mandevilla

This beautiful, evergreen vine displays spectacular, soft pink flowers with multiple layers of petals that form full, double blossoms that look like a flower-within-a-flower. Each blossom lasts for several days, with blooming continuing throughout the summer. Pink Parfait is an exceptionally vigorous grower with large, glossy green leaves. It is a lovely choice for a trellis or arbor as its twining stems can reach 15 to 20 feet long.

Michelia x 'MicJUR01' Blush P.P.A.F.

Item #9128

Fairy Magnolia® Blush

Bred by renowned New Zealand breeder Mark Jury, Fairy Magnolia® Blush is an upright, bushy shrub, reaching 10 to 13 feet high and 8 to 10 feet wide. With masses of blushed lilac-pink flowers blooming late winter to mid-spring, it is excellent as a specimen plant or hedge plant, to take advantage of its naturally compact habit. Position close to doorways, windows or patios to enjoy the fragrant blooms.

Monrovia
Exclusive

Nandina domestica 'Monfar' P.P.# 14,693

Item #6222

Sienna Sunrise® Heavenly Bamboo

Zone: 6 - 11

Intense fiery red new foliage cools to lush medium green in summer. Red highlights reappear in fall and winter. Occasionally produces small white flowers. Mass for intense color. Perfect choice for high profile accents, containers or in mass groupings for intense color. Evergreen. Slow growth three to four feet tall, two to three feet wide.

Monrovia
Exclusive

Olea europaea 'Montra' P.P.# 6,266

Little Ollie® Dwarf Olive

Item #6304

Zone: 8 - 11

This dwarf, non-fruiting olive is a beautiful multi-stemmed shrub, ideal for foundation planting. Deep green leaves have lighter green undersides, with a nearly silvery cast. Attractive as a formal clipped hedge, or easily pruned to show off its natural multi-trunked habit. Excellent in topiary form, or trained as a single trunk small specimen. Heat, drought and salt tolerant. Moderate growing to four to six feet tall and wide. Evergreen.

Monrovia
Exclusive

Physocarpus opulifolius 'Monlo' P.P.# 11,211

Diabolo® Ninebark

Item #6393

Zone: 2 - 7

Selected for the intense reddish-purple foliage on upright, arching branches. Provides excellent color contrast when used in the border, or as a hedge or screen. Added contrast to the dark foliage are clusters of creamy-white flowers in summer followed by blue black berries. Foliage can tend to become dark green in excessive heat of summer and when grown in partial shade. Requires full sun for best color. Moderate grower to eight to 10 feet tall and wide. Deciduous.

Monrovia
Exclusive

Picea glauca 'Haal' P.P.# 11,473

Alberta Blue Dwarf Alberta Spruce

Item #6464

Zone: 2 - 8

An improved, cold hardy selection with striking silvery blue foliage that does not revert back to green. Slow growing plant in tight conical form makes it nearly maintenance free. Outstanding in containers framing a doorway, or planted in the landscape as a specimen or in an odd-number grouping. Decorate with white lights for Christmas. Slow growing five to seven feet tall, two feet wide. Evergreen.

New

Monrovia
Exclusive

Picea glauca conica 'MonRon' Tiny Tower®

Tiny Tower® Alberta Spruce

Item #1937

Zone: 3 - 8

This handsome small conifer has an excellent pyramidal form reaching only four to six feet tall. Its dense bright green foliage turns an attractive gray-green when mature. Outstanding as an accent, small specimen or container planting. Slow growing, evergreen.

Distinctively Better® Plants

New

Monrovia
Exclusive

Picea glauca 'Well's Weeper' **Well's Weeper Spruce**

Item #3327

Zone: 2 - 8

This handsome new conifer selection has a strong upright habit, and pendulous branches covered with short, densely packed needles. Adds a graceful, weeping effect to the landscape. Foliage matures to an interesting blue-green. This evergreen tree makes a great accent specimen, and is useful as windbreak or screening.

Monrovia
Exclusive

Pittosporum tenuifolium 'Golf Ball' P.P.# 15,329 **Golf Ball Kohuhu**

Item #1658

Zone: 8 - 11

This frost-hardy Mediterranean cultivar is the perfect garden plant – noted for its round compact growth habit and clean, glossy, mint-green foliage on black stems. An evergreen shrub with a moderate growth rate, it requires little effort in the garden and will grow to three to four feet tall and wide; easily kept smaller with occasional shearing. Best used in groupings along borders, foundation plantings, a low growing garden hedge, or in containers.

Monrovia
Exclusive

Pittosporum tenuifolium 'Silver Star' **Emerald Wave® Kohuhu**

Item #2597

Zone: 8 - 11

Small, light green, wavy-edged leaves on red-black stems make this shrub a striking hedge or specimen. Naturally dense form and drought tolerance means little effort is required to maintain its appearance. Small brown flowers in spring are relatively insignificant. A compact, evergreen shrub to 10 to 12 feet tall and four to five feet wide.

Monrovia
Exclusive

Podocarpus elongatus 'Monmal' **Icee Blue® Yellow-Wood**

Item #8655

Zone: 9 - 11

Cool, silvery blue-green evergreen foliage distinguishes this superior conifer for warmer regions. An elegant tree producing a rounded form with dense pendant branches. New growth is lime-gray-blue maturing to a cool gray-blue-green on this excellent specimen, lawn or screen tree. One of the most beautiful and decorative pyramidal conifers for the South. Excellent problem solver for dry climates and porous or alkaline soils. Provides lush shade as a backdrop for burgundy colored plants. Moderate grower to 15 to 25 feet tall and wide. Introduced to the market by Monrovia.

Prunus serrulata 'Amanogawa'
Japanese Flowering Cherry Tree

Item #1651

Zone: 5 - 8

This narrow, columnar tree is perfect for small spaces. In April and May, the upright branches are smothered in large, semi-double, pale pink flowers. Bronze-green foliage turns to mid-green and then bursts into orange and red fall color. A wonderful tree for lining avenues or as an eye-catching specimen. Reaches 25 feet tall and 12 feet wide. Prefers sandy loam to some clay with pH range of 4.5 to 7.5.

Monrovia
Exclusive

Quercus nuttallii 'MonPowe'
Charisma® Nuttall Oak

Item #3986

Zone: 5 - 9

This native tree with outstanding maroon to chocolate-colored foliage and stems was discovered by Monrovia Craftsman Marty Powe. New spring growth remains well into summer before turning a deep green color. Its branching habit is somewhat open with the deeply lobed foliage exhibiting striking red fall color. This shade tree grows well in acid or poorly drained soils and requires minimal pruning. Deciduous. Moderate growth to 60 feet tall and 50 feet wide.

Monrovia
Exclusive

***Raphiolepis umbellata 'RutRaphb1'* P.P.# 20,730**
Southern Moon® Yedda Hawthorn

Item #4675

Zone: 7 - 10

An improved selection by Dr. John Ruter with the University of Georgia. Close to a decade of evaluation has shown this plant to exhibit exceptional disease resistance combined with a compact, self-mounding habit reaching just five to six feet tall, unlike *R. umbellata* 'Minor'. Dark green, glossy foliage and wavy margins add interest. Abundant white flowers appear in spring prior to emerging new growth. Excellent for foundation plantings or hedges in a full sun location.

Distinctively Better® Plants

EXCLUSIVE RHODODENDRON (H-1) RAISE THE ROOF® SERIES

Monrovia has long been known as a premiere grower of Rhododendrons with nearly 50 varieties. So to consider adding more to our offerings they would need to be very special. And that's what we found with the new Raise the Roof® Series. Slam Dunk, Hoopla, Buzzer Beater and Huskymania (the basket-ball-related names celebrate women's and men's NCAA championships) are dependable cold-hardy Rhododendrons with improved flower colors, improved growth habits, and greater disease resistance and cold hardy buds. They were brought to us by Dr. Mark Brand, Associate Professor of Plant Science at the University of Connecticut, who introduced the collection. This Rhododendron breeding program was started in 1960 by Dr. Gustav Mehlquist who would cross two Rhododendrons with different desirable traits to get both traits in one plant. Thousands of such combinations were grown, evaluated, refined and culled down to the best of the best. Monrovia is delighted to offer these standouts in the Raise the Roof® Series.

New

Rhododendron x 'Buzzer Beater' (H-1) Raise the Roof® Series

Buzzer Beater Rhododendron

Item #1975

Zone: 4 - 8

Trusses of pale yellow flowers provide a spectacular spring display. Grows vigorously and withstands harsh winter climates in New England. A very effective accent or low, informal hedge. This new selection develops dense, upright form with age, reaching five to seven feet tall and wide.

Rhododendron x 'Hoopla' (H-1) Raise the Roof® Series

Hoopla Rhododendron

Item #1977

Zone: 4 - 8

Trusses of pink flowers with a yellow throat provide a spectacular display. Blooms are supported by bright green wavy foliage with a semi-glossy sheen. This outstanding selection makes a very effective accent or low, informal hedge. Moderate-growing to five to seven feet tall and wide.

Rhododendron x 'Huskymania' (H-1) Raise the Roof® Series

Huskymania Rhododendron

Item #1979

Zone: 4 - 8

A stunning breakthrough in H-1 Rhododendrons. Violet flower buds open to display purplish-blue blossoms with greenish speckling. The flower trusses are a color reminiscent of the team colors of the Husky Basketball teams for which this plant is named. This vigorous, cold-hardy hybrid is perfectly used as a showy accent or informal hedge. Moderate-growing to eight to ten feet tall and wide.

New

Rhododendron x 'March Madness' (H-1) *Raise the Roof® Series*

March Madness Rhododendron

Item #2019

Zone: 4 - 8

Trusses of rose-colored flowers with a small red blotch provide a spectacular spring display blooming two to three weeks before other large leafed rhododendrons. A compact, shapely shrub, perfect for use in borders or as an informal hedge. Moderate-growing to five to seven feet tall and wide.

Rhododendron x 'Slam Dunk' (H-1) *Raise the Roof® Series*

Slam Dunk Rhododendron

Item #1974

Zone: 4 - 8

Trusses of frilly, wine-burgundy colored flowers with a dark blotch are the main attraction for home gardens and designers. This vigorous, cold-hardy hybrid has a dense rounded habit and makes a very effective accent or low, informal hedge. Moderate growing to five to seven feet tall and wide.

Rosa x 'NOA97400A' P.P.A.F.

Flower Carpet® Amber Ground Cover Rose

Item #3629

Zone: 4 - 10

From soft red buds, an abundance of semi-double peachy amber flowers, fading to seashell pink, envelope the plant. Blossoms are fragrant – a first for this series of easy-care groundcover roses! Features higher disease resistance than the original Flower Carpet® roses, along with excellent tolerance of heat and humidity. Tolerant of dry conditions once established. Beautiful in containers or planted in mass. Vigorous compact shrub reaches 24 to 30 inches tall and slightly wider.

New

Rosa x 'Noasplash' P.P.A.F.

Flower Carpet® Pink Splash Ground Cover Rose

Item #7957

Zone: 5 - 10

More compact than the original Flower Carpet® Pink rose, Pink Splash has rich, glossy green foliage, with exceptional disease resistance. This genuinely easy-care groundcover rose provides masses of two-toned hot pink and pale pink blooms, spring through fall. During the long flowering season, this rose will self-clean, eliminating the need for pruning or deadheading. Use in flowerbeds, mass plantings, large containers. Reaches 24 to 32 inches tall and 40 inches wide. Deciduous.

Distinctively Better® Plants

Rosa x 'NOA250092' P.P.# 16,276

Flower Carpet® Pink Supreme Ground Cover Rose

Item #3638

Zone: 4 - 10

Winner of the world's top honor for disease resistant roses - Germany's coveted All Deutschland Rose (ADR) designation! Vibrant, hot pink blooms provide a non-stop show from spring to fall against glossy dark green foliage. Pink Supreme features higher disease resistance to black spot and mildew than the original Flower Carpet® roses, along with excellent tolerance of heat and humidity. This low growing, dense shrub also tolerates dry conditions once established, making it well suited to mass plantings and slopes. Deciduous.

Rosa x 'NOA83100B' P.P.# 17,373

Flower Carpet® Scarlet Ground Cover Rose

Item #3631

Zone: 5 - 10

Living up to the Flower Carpet® name, this carefree groundcover shrub produces masses of brilliant, scarlet red flowers spring through fall, providing color for up to ten months in warmer climates. Glossy, dark green foliage is resistant to mildew and black spot. This adaptable little shrub is tolerant of dry conditions once established and is an excellent choice for borders, pots, and hanging baskets.

Monrovia
Exclusive

Taxus cuspidata 'Monloo' P.P.# 10,335

Emerald Spreader® Japanese Yew

Item #7234

Zone: 4 - 7

The ideal low maintenance choice for large scale ground cover and embankment plantings or low naturalistic hedges. Retains its dark green foliage color in the coldest of winters and is covered with red berries in winter. Evergreen. Prefers full to partial sun. Moderate to slow grower to 30 inches tall, eight to 10 feet wide.

New

Monrovia
Exclusive

Taxus x media 'Huber's Tawny Gold'

Huber's Tawny Gold Spreading Yew

Item #2885

Zone: 4 - 7

Dense, spreading shrub with attractive tawny-gold needles. Provides excellent contrast when massed under the canopy of trees. An outstanding specimen plant, this versatile and durable shrub tolerates shearing well, making it ideal for use in foundation plantings, low hedges or borders. Slow grower to three to four feet tall, four to six feet wide. Evergreen.

Easy-Care Color that Gardeners will Love!

This Winner of the Chelsea Flower Show's 2011 Plant of the Year Award, 'Anemone Wild Swan™' P.P.# 23,132, has large pure white flowers with chartreuse stamens that nod high above the stems. The back of the elegant blooms are lilac-blue. This variety has a longer flowering season than other Japanese Anemones, and is still dazzling when other Anemones have stopped blooming.

This hybrid between *Anemone rupicola* and *A. hupehensis*, forms a desirable compact clump.

Another renowned plant breeder, Bruce Meyers, brought us two colorful hybrid Penstemons, selected from crossing Mexican and American native Penstemons. Red Rocks® Penstemon sports a succession of tall showy spikes of bright rose-red flowers all summer long. This lovely hybrid is a Plant Select® winner and is named after Denver's famous amphitheater which was carved out of the spectacular red sandstone cliffs nearby. Pikes Peak® Purple Penstemon has violet-purple flowers and narrow, dark green leaves forming an attractive mound. Both new selections thrive in a wide range of sites and soils and are very drought tolerant.

New

Achillea millefolium 'Strawberry Seduction' P.P.# 18,401
Strawberry Seduction Yarrow

Item #5825

Zone: 3 - 8

Big heads of rich, velvety red flowers with bright gold centers dance atop long stems over a long blooming period, mid-June through July. Upright habit is remarkably dense, full and sturdy. Blooms are attractive in both cut and dried flower arrangements. This carefree perennial is ideal in sunny beds and borders and makes a great addition to the butterfly garden. Heat loving and drought tolerant once established. Grows to two-and-one-half feet tall and wide.

Distinctively Better® Perennials

Monrovia
Exclusive

Agapanthus africanus 'MonKageyama' **Sun Stripe® Agapanthus**

Item #3528

Zone: 8 - 11

A unique variegated Agapanthus discovered by F.K. Nursery in Los Angeles. The center of the strap is green marbled with yellow stripes, bordered with a wide soft yellow margin. One of the widest straps on a variegated Agapanthus. Blue flower stalks appear in summer. Excellent in perennial gardens or containers. Works well in morning sun, but appreciates dappled shade in the hot afternoon. Reaches 20 inches tall and 24 inches wide.

Monrovia
Exclusive

Agapanthus orientalis 'BenFran' P.P.# 21,705 **Baby Pete™ Agapanthus**

Item #9957

Zone: 8 - 11

A marked improvement over Peter Pan, this exciting Agapanthus was selected for its unique compact form and attractive blooms that rise just above its foliage. Blooms weeks earlier than other varieties and rarely sets unsightly seedpods. It has proven to be a very floriferous variety. With shorter, wider leaves than other dwarf varieties, its foliage has an improved appearance. Plant along a pathway, group at an entryway or combine with other perennials in a container. Foliage reaches 12 to 15 inches tall, 18 to 24 inches wide; flower stems rise six to eight inches above foliage.

Monrovia
Exclusive

Agapanthus x 'Monmid' **Midnight Blue® Agapanthus**

Item #0188

Zone: 6 - 11

An exciting introduction with deep, blue violet flowers held in tight clusters on tall stalks. Lush strap-like foliage is bright green. Great for borders and containers. This herbaceous perennial thrives in full sun. Flower stalks grow to three to four feet tall, foliage to two feet tall.

New

Anemone x 'Macane001' P.P.# 23,132 Wild Swan™ C.O.P.F. **Wild Swan™ Hybrid Anemone**

Item #3902

Zone: 6 - 8

This exceptional hybrid offers continuous and prolific flowering from June until frost, well beyond that of the Japanese hybrid cultivars. Nodding buds open into pure white flowers and adorn tall stems above lush deep green maple-shaped leaves. The backs of the blooms are lilac-blue. Lovely massed in a woodland setting or spotted into wild rock gardens, and an excellent cut flower. Recipient of Chelsea Flower Show 2011 Plant of the Year Award. Herbaceous. Clumps reach 18 inches tall, spreading to 24 inches wide.

Distinctively Better® Perennials

Bouteloua gracilis 'Blonde Ambition' P.P.# 22,048

Blonde Ambition Ornamental Grass

Item #6779

Zone: 4 - 9

This native grass features a profusion of tall, showy flag-like flowers that rise up from the blue-green foliage in mid-summer, held horizontally on stiff, weather resistant stems. Provides plenty of winter interest as the stems, bearing long lasting blonde seed heads, remain standing through winter. This rugged, attractive grass is extremely cold hardy, and a perfect choice for low maintenance landscapes. Tolerates clay, sandy or loamy soil with a pH range of 6.6 to 7.8. Reaches three feet tall and wide.

New

Coreopsis 'Pineapple Pie' P.P.# 22,486

Pineapple Pie Tickseed

Item #7390

Zone: 9 - 11

Continuously flowering from early summer to fall, this colorful perennial produces an abundance of rusty-red-eyed, golden yellow blooms. Adds a bright spot to the landscape, attracting butterflies and bees. Low, dense mounding habit is great for containers, mixed beds, or borders. Treat as an annual in colder zones. Reaches 16 to 20 inches tall and wide.

New

Coreopsis 'Pink Lemonade' P.P.# 18,265

Pink Lemonade Tickseed

Item #7389

Zone: 9 - 11

A great mixer in containers! Bright golden foliage gives a long season of interest until the bright, clear pink flowers arrive, attracting butterflies and bees. Forms a dainty, compact mound – perfect for low beds and mixed borders. May overwinter in mild winters; treat as an annual in colder zones. Reaches eight to 10 inches tall and 12 to 14 inches wide.

New

Coreopsis verticillata 'Route 66' P.P.# 20,609

Route 66 Tickseed

Item #5826

Zone: 5 - 9

Vigorous newer selection of threadleaf Coreopsis. Large yellow flowers have a beautiful ring of burgundy around the crown that bleeds down the petal tips, becoming the dominant color in fall. This cheerful, prolific bloomer makes a bold statement in perennial beds and pathway borders. Well-suited for containers and hanging baskets. Overwinters through zone 5. Performs well in hot, dry conditions. Perennial. Fast growth, 24 to 28 inches high and 24 inches wide.

Distinctively Better® Perennials

New

Cuphea llavea 'Flamenco Rumba' P.P.# 17,213

Flamenco Rumba Cuphea

Item #9389

Zone: 8 - 10

A dazzling selection from the Flamenco series, bred for prolific blooming habit, long flowering season, improved flower presentation and compact habit. Large, brilliant orange-red flowers showcase a contrasting purple and white throat. A flamboyant mass of blooms appears over a long season, making this versatile plant a great addition to a hummingbird garden. Tuck into perennial beds, window boxes and hanging baskets for dramatic effect. Compact, mounding form reaches 16 inches tall and wide.

New

Cuphea llavea 'Flamenco Tango' P.P.# 17,285

Flamenco Tango Cuphea

Item #9391

Zone: 8 - 10

Bred for its compact habit, high flower volume, improved flower presentation and long flowering season, this exciting selection from the Flamenco series features large, hot pink flowers with a contrasting white and purple-mauve throat. A must for the hummingbird garden, this prolific bloomer is well suited for perennial beds, window boxes and hanging baskets, where it will provide dramatic display over a long season. Compact, mounding form reaches 16 inches tall and wide.

New

Dianthus First Love®

First Love® Cheddar Pink

Item #6773

Zone: 3 - 9

Noted for the multiple hues of its dainty blossoms, this compact perennial blooms nearly continuously from spring until frost. From compact, silvery blue-green foliage, the flowers emerge white, change to pink and age to lavender-rose, giving a watercolor painting effect to the border. May bloom year-round in warmer climates. Essential to the cottage garden and perennial border. Reaches 12 to 18 inches tall and wide.

Monrovia
Exclusive

Dietes x 'NolaAlba' P.P.# 21,460

KATRINA® African Iris

Item #4674

Zone: 8 - 11

Peter Perrino of Perrino's Nursery in Louisiana, selected this plant for its landscape durability and its refined appearance. In Southern regions, this variety is resistant to root and crown disease, unlike the regular species. Creamy-white flowers have yellow and orange centers and do not set seedpods, resulting in a prolonged bloom period. Improved foliage is a brighter green with wider and longer leaf blades. A portion of proceeds benefit the America's Wetlands Foundation. Moderate growing to two to three feet tall, three to four feet wide.

Distinctively Better® Perennials

Echinacea 'CBG Cone 2' P.P.# 18,546
Pixie Meadowbrite™ Coneflower

Item #3227
Zone: 4 - 9

As its name implies, this garden beauty has a petite form and in the summer produces a mass of bright pink Coneflowers held on short sturdy stems. This hardy deciduous perennial will develop a clump 18 inches tall and wide, and is an excellent choice to liven up a summer garden. Pixie looks great in a container, either alone or paired with other colors and textures. Densely spaced, compact flower stems create a mass of color and reappear when spent stems are removed. Hybridized by Jim Ault, Director of Environmental Horticulture at the Chicago Botanic Garden.

New

Echinacea purpurea 'PowWow White'
PowWow White Coneflower

Item #0312
Zone: 3 - 9

Large, pure-white flowers with bright, golden-yellow centers will provide an excellent show from early summer right into fall, without deadheading! This outstanding new introduction has a neat, compact habit, upright form, and sturdy, well branched stems. Its prolific flowering habit makes it an ideal addition to beds, mixed borders and containers. Drought tolerant once established. Fast grower to 16 to 20 inches tall and 12 to 16 inches wide.

Helleborus 'Apricot Bush'
Winter Jewels™ Apricot Blush Lenten Rose

Item #6724
Zone: 4 - 9

This hybrid from Marietta O'Byrne's meticulous Hellebore breeding program is one of her most popular selections. Flowers are varying shades of peachy-apricot with darker rose veining, speckling, or picotee edges. This vigorous grower offers a profusion of huge, three to four inch nodding flowers that last for weeks in early spring. Reaches 18 to 22 inches tall and 20 to 24 inches wide.

Helleborus 'Black Diamond'
Winter Jewels™ Black Diamond Lenten Rose

Item #6728
Zone: 4 - 9

Purple to near black single blossoms adorn this striking perennial from late winter through spring. Perfect for naturalizing in woodland areas and deer resistant too! Prefers well-drained soil. Reaches 15 to 18 inches tall and 18 to 22 inches wide.

Distinctively Better® Perennials

Helleborus 'Cherry Blossom'

Winter Jewels™ Cherry Blossom Lenten Rose

Item #6726

Zone: 4 - 9

A beautiful bi-color, Cherry Blossom's flowers glow in rich pink with cherry red centers from late winter to spring. The evergreen foliage provides year-round interest and is deer resistant. This extremely vigorous strain of three inch semi-double blooms is the result of over 15 years of hand-breeding. Prefers moist, well-drained soil. Reaches 18 to 22 inches tall and up to 24 inches wide.

Helleborus 'Painted'

Winter Jewels™ Painted Lenten Rose

Item #6723

Zone: 4 - 9

This heavily spotted strain of Winter Jewels™ Hellebores boast amazingly large three-inch flowers on vigorous plants. White blooms tinged with magenta appear for three months from late winter through spring. Each petal has intensely painted or brushed spotting that provides interest long after other colors have faded. Attractive evergreen foliage provides year-round interest. Prefers well-drained soil. Reaches 18 to 22 inches tall, up to 24 inches wide.

New

Helleborus 'Night Coaster'

Night Coaster Lenten Rose

Item #8022

Zone: 4 - 9

Dramatic and rare, rich black-satin blooms keep their color long after its flowers are spent. From breeder Chris Hansen's Winter Thrillers™ collection, this handsome selection is a prolific bloomer, with mature plants displaying up to 75 blooms at a time atop attractive mounds of leathery, dark green glossy foliage. This vigorous, easy to grow, and deer-proof perennial makes a great addition to the shade garden. Evergreen. Grows 18 to 22 inches high, spreading to 24 inches wide.

New

Helleborus 'Red Racer'

Red Racer Lenten Rose

Item #8023

Zone: 4 - 9

Velvety, rich mahogany-red blossoms are held well above the foliage on sturdy stems. Perhaps the most intriguing color selection from breeder Chris Hansen's Winter Thrillers™ collection, the enormous three and one-half inch flowers will add drama to the early spring garden, opening red and aging slowly to dark green. An extraordinary bloomer; mature plants may have up to 75 flowers dancing above mounds of leathery dark green glossy foliage, lasting for weeks. An exceptional selection for shady beds and borders. Evergreen. Reaches 18 to 22 inches high, spreading to 24 inches wide.

Distinctively Better® Perennials

Monrovia
Exclusive

Hemerocallis x 'Malja' P.P.# 14,221 **Golden Zebra® Daylily**

Item #3983

Zone: 4 - 11

Beautiful, stable, variegated foliage on a dwarf Daylily. Striking green and white striped leaves are produced under shade conditions; green and yellow when grown in the sun. Clear golden-yellow clusters of flowers on very short stems in summer. Plant in mass for vivid displays, in containers for excellent contrast or in mixed perennial borders. Deciduous even in the mildest of climates. Prefers full sun to partial shade. Foliage reaches 12 inches tall, spreading to 24 inches.

Hesperaloe parviflora 'Perpa' P.P.# 21,729 **Brakelights® Red Yucca**

Item #6418

Zone: 6 - 10

A compact new color selection of *Hesperaloe parviflora*. The vibrant, brake-light red flowers are a wonderful contrast to the standard form, which tends to be more pink or salmon colored. Its long bloom season and attractive gray-green foliage is striking in containers or massed into groups. Compact grower reaching two feet tall. Requires good drainage. Does not set seed, resulting in a longer bloom period.

Heuchera x 'Caroline' P.P.# 20,026 **Caroline Coral Bells**

Item #3671

Zone: 4 - 9

Hybridized with Northeastern native species for improved winter resilience and outstanding flowers, this cultivar was brought to us from The Primrose Path collection. It has large creamy-white, bell-shaped flowers on sturdy stems. Its evergreen, purplish-green foliage has a light, frosted silver pattern. Versatile in the garden or in containers. Mounding foliage 10 inches tall, 15 inches wide; flower stems 18 inches tall. Bred by Charles and Martha Oliver.

Heuchera x 'Crystal Spires' P.P.# 20,385 **Crystal Spires Coral Bells**

Item #3676

Zone: 4 - 9

This cultivar, bred by Charles and Martha Oliver, was hybridized with Northeastern native species for improved winter resilience and large bell-shaped flowers on sturdy stems. It has evergreen, dark-green foliage with a frosted silver pattern and creamy-white flowers. Versatile in the garden or as a container plant. Mounding foliage reaches 12 inches tall and 18 inches wide; flower stems to 24 inches tall.

Distinctively Better® Perennials

Monrovia
Exclusive

Heuchera x 'Moonlight' P.P.# 17,434 **Moonlight Coral Bells**

Item #3854

Zone: 4 - 9

Another fantastic Heuchera breed by Charles and Martha Oliver, this selection impresses with striking deep purple and silver-frosted foliage – so dark it appears black. Dramatic dark purple stems and luminous pale green flowers are a striking contrast. These distinctive traits, along with the largest individual flowers known on any Heuchera in the trade, make for an excellent and mysterious looking accent in any garden. Position in the borders or mixed container plantings, where it will thrive in dappled shade.

Monrovia
Exclusive

Heuchera x 'Rose Majesty' P.P.# 17,414 **Rose Majesty Coral Bells**

Item #3669

Zone: 4 - 9

Rose Majesty, with its large deep-rose, bell-shaped flowers on sturdy dark purple stems and improved winter resilience is the product of breeders Charles and Martha Oliver of The Primrose Path. This was hybridized with cultivar Northeastern native species to create a superior Heuchera. Softly patterned silver and purple foliage has rich red undersides. Tolerant of sun and shade, it is versatile in the garden or as a patio container plant. Mounding foliage reaches eight inches tall and 16 inches wide; flower stems to 26 inches tall.

Monrovia
Exclusive

Hibiscus moscheutos 'Dave Fleming' P.P.# 21,392 **Dave Fleming Hibiscus**

Item #3471

Zone: 4 - 10

This cultivar is part of the Fleming's Hardy Hibiscus series bred for improved flowers and growth habit. It has large, pinkish-red flowers with overlapping petals accented with showy stamens. This herbaceous shrub has fancy, maple-like leaves with a burgundy tint and will grow rapidly in spring to three to four feet tall and wide. It prefers a sunny location for its full glory and works well in a flowering summer border.

Monrovia
Exclusive

Hibiscus moscheutos 'James Fleming' P.P.# 21,434 **James Fleming Hibiscus**

Item #3472

Zone: 4 - 10

This groundbreaking improvement, from the Fleming Brothers breeding program, produces maroon-tinted foliage. Exceptionally bright hot-pink flowers have a red eye and a flat, wide form. The huge blooms really stand out against the dark foliage. This spectacular summer bloomer has an upright, rounded habit making it a perfect quick addition to the shrub or perennial border for an instant makeover. A satisfying country garden staple. Prefers full sun. Very fast grower to three to four feet tall and wide.

Monrovia
Exclusive

Hibiscus moscheutos 'Snowflake' P.P.A.F.

Snowflake Hibiscus

Item #9209

Zone: 4 - 10

Another fantastic variety from the Fleming Brothers breeding program, Snowflake has gorgeous cerise-red blooms showing over a long season that look stunning against maroon foliage. Strong upright rounded form, three to four feet tall and wide. Perfect addition to the shrub or perennial border for an instant makeover. Chosen both for its tropical appeal and its compact, cottage look. Deciduous.

Monrovia
Exclusive

Hibiscus moscheutos 'Stardust' P.P.# 21,479

Stardust Hibiscus

Item #3632

Zone: 4 - 10

Another selection from the Fleming's Hardy Hibiscus series. These hardy plants were bred for improved flowers and growth habit. It has very large, clear pink flowers with overlapping petals accented by a cherry-red eye. This herbaceous shrub sports fancy, maple-like leaves with a light burgundy tint, and will grow rapidly in spring to three to four feet tall and wide. It prefers a sunny area for its full glory and works well in a flowering summer border.

Monrovia
Exclusive

Hibiscus moscheutos 'Strawberry Swirl' P.P.# 21,542

Strawberry Swirl Fleming Hibiscus

Item #3473

Zone: 4 - 9

The huge, stunning flowers are a signature of the Fleming's Hardy Hibiscus series. Striking blooms have pink petals, alternately overlapping lighter pink, and are accented by a cherry-red eye. An herbaceous shrub, it has shiny green, diamond-shaped leaves and will grow quickly to three to four feet tall and wide. It needs a sunny location and works well in a flowering summer border.

Monrovia
Exclusive

Hosta hybrid 'MonChard' Little Darling™ P.P.A.F.

Little Darling™ Hosta

Item #4779

Zone: 3 - 7

This dwarf Hosta has a very tidy, mounding habit. Its leaves have a bright green and yellow center with a stable variegation. Dainty white flower spikes appear in July. A good garden performer and excellent small container plant. Reaches 10 inches tall and 14 inches wide. Prefers consistently moist, well-drained soil.

Distinctively Better® Perennials

New

Nepeta nervosa 'Pink Cat'

Pink Cat Catmint

Item #8174

Zone: 4 - 9

Butterflies and hummingbirds will flock to the stalks of hot pink flower clusters that emerge from compact mounds of dark-green foliage in mid summer! Tolerant of hot and dry conditions, this tough perennial is resistant to rabbit and deer grazing. This prolific bloomer is perfect for using near the front of perennial borders and in mixed container plantings. Foliage reaches six inches tall and 12 inches wide; nine to 12 inches tall in bloom.

New

Origanum libanoticum

Cascading Hopflower Oregano

Item #6777

Zone: 4 - 10

This is an exceptional, sun-loving ornamental herb with fragrant foliage. Pale green and blush colored paper-lantern like bracts dangle from arching wiry stems, each embellished with a small rose-pink flower. Beautifully featured at the edge of raised beds and berms, or in window boxes. Flowers are prized for dried arrangements. Heat and drought tolerant once established. Herbaceous perennial; suitable as an annual. Reaches one to two feet tall and wide.

New

Penstemon x mexicali Pikes Peak Purple®

Pikes Peak Purple® Penstemon

Item #6778

Zone: 4 - 9

This colorful native hybrid is a Plant Select® winner, chosen for outstanding garden performance throughout the high plains and intermountain regions of the Rockies. Hummingbirds are attracted to the tall spikes of grape-colored, nectar-rich flowers. This versatile perennials thrives in a wide range of soils and tolerates drought, but will bloom most vigorously in fertile soil with regular watering. Use in borders, meadows and naturalized landscapes. Clumps reach one to three feet tall and two to three feet wide; flower spikes to three feet tall.

New

Penstemon x mexicali Red Rocks®

Red Rocks® Penstemon

Item #2947

Zone: 4 - 9

Tall showy spikes of bright rose-red flowers rise above mounded foliage throughout summer. A Plant Select® winner, this colorful, adaptable native Penstemon hybrid thrives in a wide range of soils and conditions, and is very drought tolerant. Makes a colorful impact in borders, meadows and naturalized gardens, where hummingbirds will flock to its nectar-rich flowers. Clumps reach one to three feet tall and two to three feet wide; flower spikes to three feet tall.

Distinctively Better® Perennials

Russelia equisetiformis Firecracker Plant

Item #6969

Zone: 9 - 11

Hanging clusters of scarlet tubular flowers resembling small firecrackers cover this plant from spring through fall. Its slender, rush-like stems are covered with small scales. The wiry branches start out erect then fall over into long cascades. A must-have for tropical butterfly gardens, it is often grown in hanging baskets, spilling over walls, or tied to a trellis. Prefers sandy, well-drained soil. Reaches three to five feet tall and wide.

Monrovia
Exclusive

Salvia microphylla x Heatwave™ Blaze P.P.A.F. Heatwave Blaze™ Sage

Item #9945

Zone: 6 - 9

This Heatwave™ hybrid was developed for disease resistance, strong branching structure, uniform upright growth habit and improved summer flowering. An evergreen perennial, it will grow two feet tall and wide, blooming profusely, well into the summer with large crimson-red flowers. It tolerates heat and is perfect in a bright flowering border.

Monrovia
Exclusive

Salvia microphylla x Heatwave™ Flare P.P.A.F. Heatwave Flare™ Sage

Item #9946

Zone: 6 - 9

One of the Heatwave™ hybrids, it has improved disease resistance, strong branching structure, uniform upright growth habit and abundant flowers throughout summer. This evergreen perennial will grow two feet tall and wide, blooming profusely, with large dark pink flowers. Tolerates heat and is perfect in a bright flowering border. Very attractive to hummingbirds.

Monrovia
Exclusive

Salvia microphylla x Heatwave™ Glimmer P.P.A.F. Heatwave Glimmer™ Sage

Item #9426

Zone: 6 - 9

This lovely cream-colored selection has a longer bloom time and quickly reblooms from spring until frost; flowering may be year round in mild climates. Bred for a compact, rounded habit and disease resistance, this is a must for drought tolerant gardens, perennial borders and patio containers. Prefers well-drained soil. Kept lightly clipped, makes an attractive, low informal hedge. Fast growing to 30 inches tall and 36 inches wide.

Distinctively Better® Perennials

Verbena lilacina 'De la Mina'

De La Mina Verbena

Item #9484

Zone: 7 - 10

Butterflies love its dark purple, fragrant flowers on eight-inch stems which bloom almost year-round in coastal California. Deeply divided, medium-green leaves form a handsome mounding habit. Fast growing and very drought tolerant, it is a good choice for mixed borders, butterfly gardens or in large decorative pots. Prefers a sunny location and well-drained soil. Will reach three feet tall and wide. A Santa Barbara Botanic Garden introduction, selected from Cedros Island off the West Coast of Baja California, Mexico.
